Choose the Right Level of Corrosion Protection
Visit www.strongtie.com/info for critical information.

LOOK FOR THE "Z" AT THE END OF THE MODEL NUMBER
The minimum level of protection recommended for deck projects. A heavier zinc coating for exterior and preservative-treated-wood applications. Must use HDG nails or Strong-Drive SDS/SD structural-connector screws.

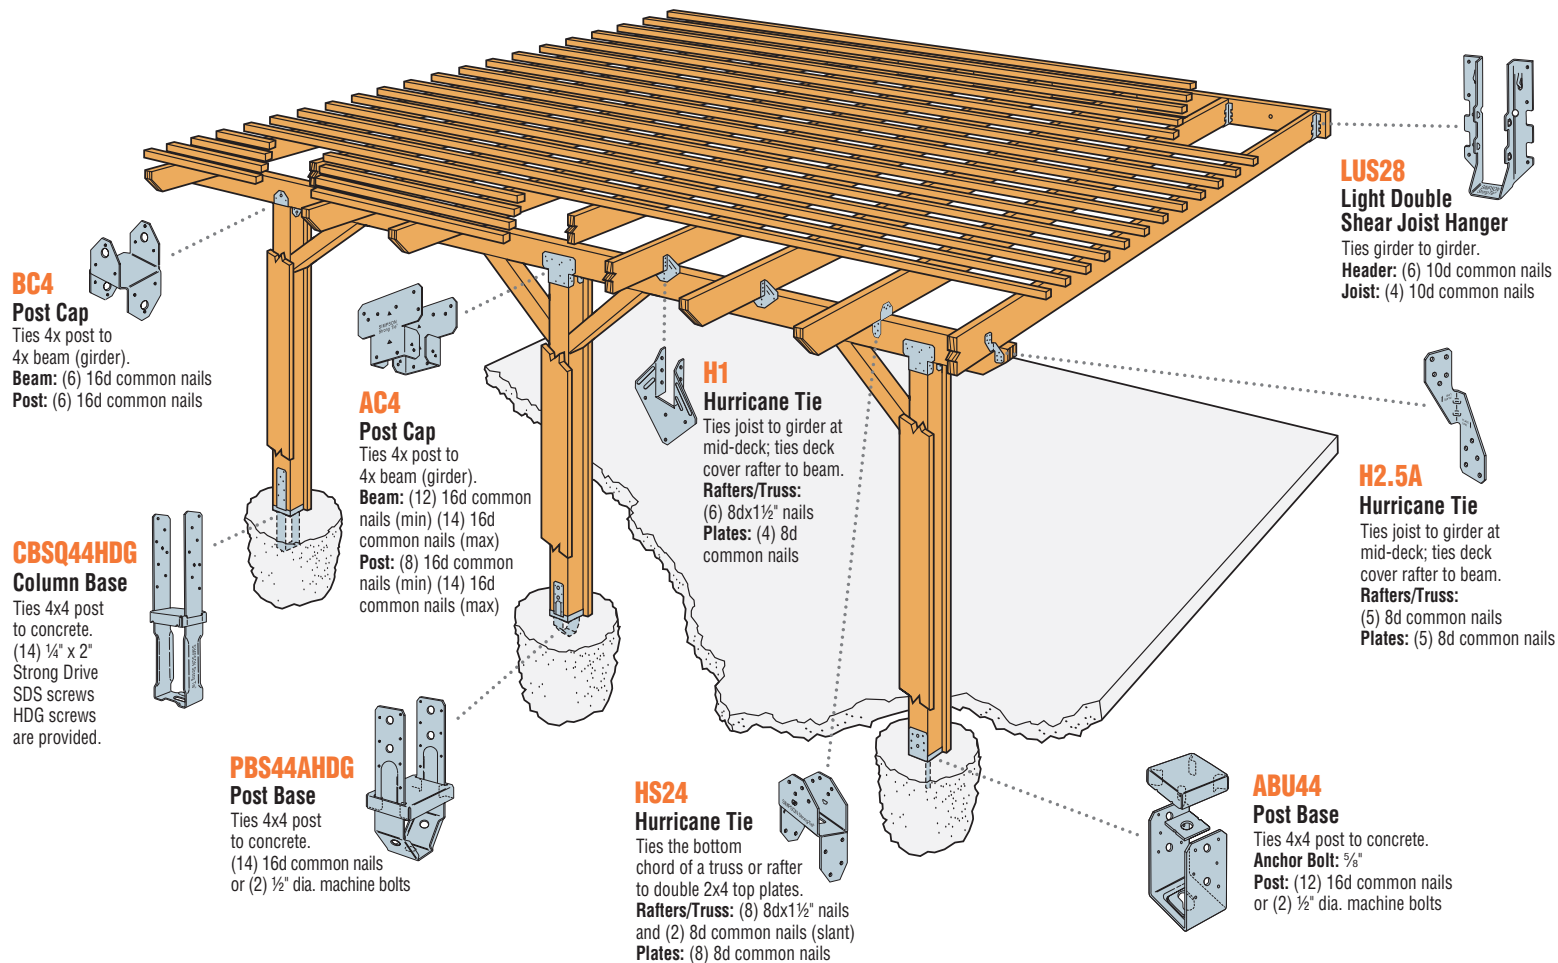

LOOK FOR THE "SS" AT THE END OF THE MODEL NUMBER
Stainless-steel connectors for the most corrosive environments and applications. Must use type 316 stainless-steel fasteners.

NOTE: Illustration shows all available deck products. Actual products selected will depend upon application or construction method used for a particular deck. Check local building codes before you begin a project.
