

Dwight David Eisenhower

The Ike Dollar

Frank Gasparro designed the Eisenhower series to commemorate Dwight David Eisenhower, a 5-Star General of the U.S. Army and 34th President of the United States, and to commemorate NASA Apollo 11 mission to landing on the moon.

In this presentation you will learn how to correctly identify Type 1, 2 and 3 of the 1972 Philadelphia minted Ike's. Also, we will identify the different minted varieties of the Ike series and the proper placement in your collector books.
