

## 78 MINERALS® TESTIMONIAL

78 Minerals Chicken Farmer

Name: Various Farmers

Location: USA

### Test Specifications

Application Target: Chicken Eggs

Application Rate: ¼ cup mixed with 20 lbs feed

Average Normal: 2 to 2.5 oz

Result Yield: 4.5 oz

Net growth increase: 100% +/-

### Our Customer's Story

This has happen with a number of chicken farmers by just adding 78 Minerals® into their water and by also adding into the chicken feed, (no more than 2% by volume), within weeks farmers not only see an increase in egg production but in size. Also reported is that the chickens feathers look better as the over all health. Farmers report that the eggs that they get now are 4 to 4.5 ounces compare to the normal store eggs, which are an average of 2.0 ounces.

#### Information:

Eggs are sorted by size before packing. There are small, medium, large, extra large and jumbo. Some places you can buy pullet eggs, which are smaller than small.

Minimum weights per dozen are: Jumbo (30 oz.), Extra Large (27 oz.), Large (24 oz.), Medium (21 oz.), small (18 oz.), and Pee Wee (or pullet) (15 oz.)

So, large eggs are 2 oz each, and mediums are 1.75 oz.

Jumbo = 2.5 oz.
