78 Minerals® **Result:** 95% healing of eczema open sores on treated hand.

Our Customer's Story

The Clay That Heals

A neighbor and patient of mine were visiting our home the other day. Among other things, we talked about healing clays and 78 Minerals®. She wanted to know what it felt like so I opened a capsule of 78 Micro Nutrients® and hydrated it. She said, "Oh, it's silky!" and quietly daubed it onto some sores she had on her left hand.

She returned today to visit and said, "You know the other day when we were feeling the clay? I put some on the eczema that I have been battling with for a very long time. I only put it on my left hand, which was just as bad as the right, and look what happened! It's GONE!"

This was with one almost accidental application 4 or 5 days ago. Of course your mileage may vary. Regardless, she is very happy.
