### Our Customer's Story

Dr. Carlos Cortelezzi, a primary veterinary scientist and animal specialist at the famous Buenos Aires Zoo in Argentina South America, was tracking a particularly troubling problem that was occurring to on one the zoo's prized African elephants.

Mara, a 35 year old female elephant was, despite consumption of the normal and varied special diet she consumed, was experiencing a particularly troubling abscess that was flaking, splitting and causing bleeding of a primary toenail.

After just 60 days of treatment with 78 Minerals® delivered as a dietary supplement mixed into her favorite food, experienced a remarkable and thorough healing of the entire effected foot pad and toenail region.
