

Personalized Large Foam Board Book Cover with fold up easel

Custom Order form Price \$50

Make a powerful statement at your next event with a custom foam board showing the cover of your book. It will help you to look professional and to get noticed across the room. Size varies from 11"x17" to 12" x 18" [portrait or landscape] depending on the cover parameters of your book. Take your display to the next level with foam boards. Mounted book covers to foam board create durable displays that look great use after use. Made of 5 mm-thick foam with a smooth matte printing surface, these signs are more substantial than your average posters, but still lightweight and portable enough to set up and take down in seconds. Full-color UV print to edge. You provide a high-quality book cover photo [jpeg, tiff, pdf], and we will order the large foam board poster from Vistaprint having it delivered to your doorstep.

Floor Easel

The floor standing easel is lightweight and portable metal construction. Display the foam board sign with a lightweight, portable black easel. From shop fronts to tradeshow, they give your sign a sleek, professional look. They set up or break down in seconds flat and fit neatly into an included storage bag.

Note: The foamboard with easel is best for inside events. They are not weatherproof and blow over in windy conditions.
