

## Book Banner Order Form

### Custom Polyester Book Banner Order form Price \$50

Stand out at outside events with a fabric banner. Single sided 1.7' x 3' durable fade resistant polyester fabric. It will be vertical or horizontal depending on the orientation of your book cover. Made of machine-washable, crease-free polyester, our custom banners are durable and ready for repeat, long-term use. Lightweight and scratch-resistant with built-in grommets & reinforced edges. Suitable for offices, retail stores, and fairs. The lightweight and tightly woven material cuts down on light reflection, which makes the book cover look its best. You provide a high-quality book cover photo [jpeg, tiff, pdf], and we will order the custom fabric book banner from Vistaprint having it delivered to your doorstep.

**Note:** The fabric banner is best for outside events. They are weatherproof. They can be hung onto the side of a pop-up tent with grommets which are already in the fabric. We have several and have sewn a pocket into the top, threaded onto a pole to keep flat in the wind. Then we put them on an extender rod flying high above the pop-up during events. In an upcoming event we are bringing three tents together, filling them with authors and have all of the authors flying their flags high over the tents!
