24/7 Access | We Come To You | Discreet Protection & Care

Life is dynamic, and it should be enjoyed. No matter how healthy, we're all susceptible to illness & injury. While public EMS agencies stand ready to respond to life-threatening emergencies, many medical ailments are better treated outside the hospital, or even in the home. Leveraging our Mobile Integrated Healthcare (MIH) - Community Paramedicine (CP) capability, we help client-patients navigate healthcare complexities while providing timely in-home emergency medical assessments & treatment.

Meaningful Private Emergency Care

Enjoy the beauty of living while the best of medicine is brought to you!

Taking Good Care of Your Business is Taking Great Care of Your Workforce
We protect and care for your most precious business assets - your people

Protect Your Workforce | Reduce Medical-Threats | Manage Risk

The only private-access provider of **Protective Medicine™** training, consulting, and protective care services

*Employee health insurance is often first to come to mind when thinking of workforce protection. With insurance alone, employees are often prematurely directed to urgent or emergency care centers due to limited access to private or mobile care options. This is not protective of the business or employee. We recognize an unprotected workforce can cost more than dollars alone. With the aim of protecting your most precious assets, we deliver **EMS/MIH-CP** and **Protective Medicine™** to care for employees at home, work, or special events.*

24/7 Access | We Come To You | Protection & Care in Aging

*Aging is inevitable, and it should be enjoyed. But with aging comes increased susceptibility to illness & injury. While public EMS agencies stand ready to respond to **life-threatening emergencies**, many medical ailments can be treated outside the hospital, on-site, in the home. Leveraging our **Mobile Integrated Healthcare (MIH) - Community Paramedicine (CP)** capability, we help older adults navigate healthcare complexities while providing timely in-home **emergency medical assessments & treatment**.*
