

State Route 4 Wagon Trail Project - Phase II

Looking for information on the Wagon Trail Project Phase II?
Go to wagontrailphase2.com

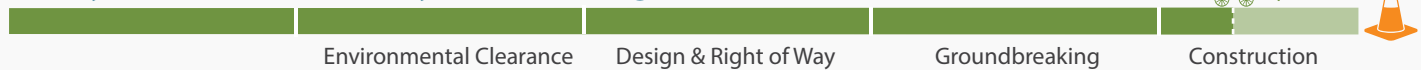

Purpose and Need

The purpose of this project is to improve State Route 4 from Stallion Way to just west of Stockton Road. The project will bring the last three miles of unimproved SR 4 in Calaveras County up to current highway design standards. This will help reduce accidents and move traffic more efficiently. In addition, this project will provide a reliable east-west trucking and agricultural route. Engineering design and acquisition of property rights will be completed by the summer of 2026. Construction could begin in 2027.

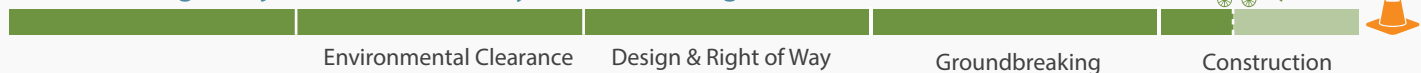

Schedule For All Phases of the Project

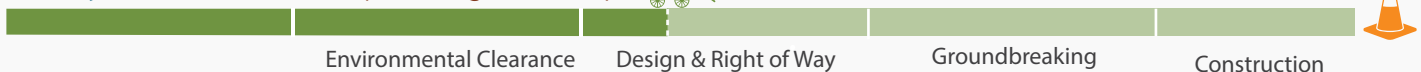

County Phase 1 - 3.1 miles (Fully Funded/In Progress)

Caltrans Bridge Project - 0.9 miles (Fully Funded/In Progress)

County Phase 2 - 2.8 miles (Funding Needed)

Project Benefits

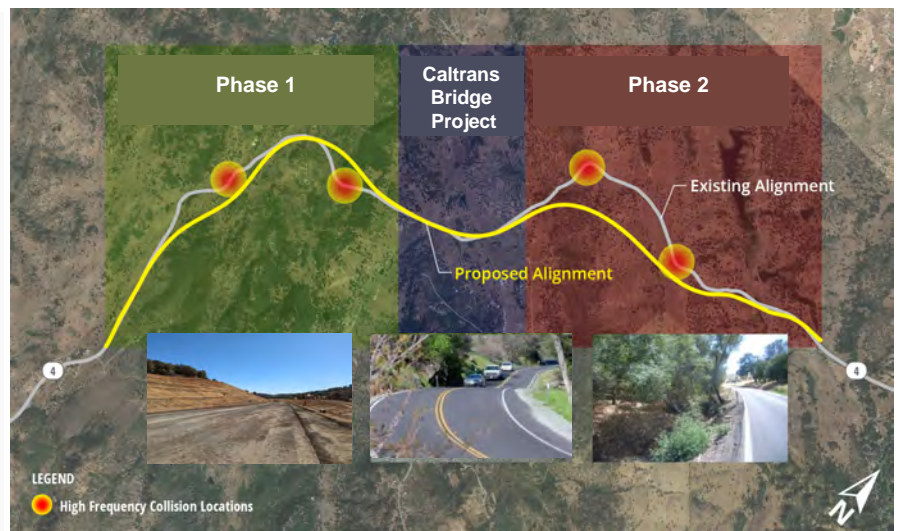

Reduce Accidents:
This roadway has an accident rate 2x greater than the state average

Provide a reliable east-west evacuation route

Improve access to recreational attractions
