

Setting up your Devices

1. When your device is blinking, click on the **Add Device** tab or the + in the right-hand corner.
2. select the device you are pairing and tap '**Confirm indicator rapidly blinks**'. You will then need to enter your Wi-Fi Password to connect (the same Wi-Fi password that you are using on your phone).
3. Once connected, name your device and allocate it in selected room
4. You are now ready to control your Mirabella Genio device.
