EASY REPAIR AND LOW MAINTENANCE

ULTIM8DECK is easily repairable and will never require staining, oiling or sealing. The high performance core and surface provides a robust level of resistance to moisture, mould, mildew and termites ensuring long-term integrity and durability. Household, BBQ spills and stains are easily removed using standard household cleaning equipment.

- Authentic Timber Colours
- Uniform Composite Build
- Easily Repairable Surface
- Natural Timber Grain Finish
- High Performance - Dense Core

ULTIM8[®]DECKING

APPLICATIONS AND EASY INSTALLATION

ULTIM8DECKING is suitable for use in a variety of decking and exterior requirements. Applications such as residential decking, pool decks, boardwalks and playgrounds are well suited for ULTIM8DECKING.

Installation is straightforward using conventional methods, including standard woodworking tools and screws. ULTIM8DECKING is certified to span 450mm (centre to centre) between joists and has been tested to comply with the Australian National Construction Codes for flooring.
