About Village Vibes:

Village Is Possible hosts monthly youth and young adult wellness experiences known as Village Vibes. The Village Vibes Project seeks to support and empower youth that have been impacted by sexual exploitation, foster care, and/or the carceral system. Participants will journey through a series of educational, preventive, and intervening practices to "Catch A Vibe" of healing. Healing through self and communal practices created by those who have also endured deep rooted, intergenerational layers of rupture caused by racialized injustices against Black and Brown Bodies (colonization, mass genocide, and policing) and perpetuated through systems of oppression (foster care and juvenile incarceration).

Village Vibes Project focuses on creating safe spaces for BEing, BELONGing, & (re)BUILDing the highest versions of self and community through:

- Recognizing self

- Nourishing Village Roots

About Freedom Forward and the HYPE Center (Key Partnerships):

Freedom Forward is working to prevent the commercial sexual exploitation of youth in San Francisco by transforming the systems that too often contribute to their exploitation. Guided by the voices of youth, Freedom Forward pilots collaborative and replicable approaches to address these systemic failures so that all youth have the opportunity to thrive. One of Freedom Forward's initiatives is the HYPE Center, which is a multi-service drop-in center designed by and for young people to easily access the services and resources they want from multiple providers under one roof.

We believe bringing services and opportunities together in one place will introduce young people to more resources in their community, reduce barriers to accessing services, and help young people succeed. We know that access to opportunities, meeting basic needs, and creating a safe space to belong are key factors in preventing vulnerabilities that lead to exploitation.

The HYPE Center is also part of a larger collaborative through a pilot funded by the California Department of Social Services and the City and County of San Francisco called SF Bay Area SOL (safety, opportunity, lifelong relationships). As part of this pilot, the collaborative is implementing a new emergency placement called the Youth Stabilization Pathway(Oasis).

The HYPE Center is currently located at 198 Potrero Ave. San Francisco.
