

Reggie Gridd, this book is a writing of truth. You shared the struggles, pain, and suffering experienced in the daily walk of life, serving as a law enforcement officer, in the Navy, and being a dedicated advocate for justice, mental health, and other components that were targeted to defeat your purpose for living. Yet, you are a veteran for God, Who provided you with the anointed strength to be an overcomer. Your faith in God, which is displayed throughout the book, will bless and encourage the reader. The table of contents is outlined for readers to continue to journey with you, many of whom have travelled the same path. The story has an abundance of scriptural references that point to God's favor. I highly recommend this book to our church, for others to be blessed as I have. Congratulations and blessings upon you!
