

CIVIL CONTRACTORS

Roesner & Hamilton Civil Contractors is part of the R&H Group, a multi-disciplinary team delivering integrated engineering, civil, and electrical solutions across South East Queensland. Backed by the expertise of our consulting engineers and electrical contracting business, we offer a unique end-to-end capability – from planning and design through to civil and electrical construction.

We are a trusted partner for government and private sector clients, providing reliable, high-quality services that keep critical infrastructure projects moving.

Technical Capabilities:

Civil Contracting

We deliver a wide range of civil construction services with a focus on safety, quality, and efficiency.

- **Road Works** – kerb and channel, pavements, asphalt surfacing, and associated civil infrastructure.
- **Concrete** – footpaths, pedestrian ramps, driveways, structural footings, and hardstand areas.
- **Earthmoving** – excavation and site preparation services carried out by licensed, experienced operators.

Electrical and Utility Installation

Through our civil and electrical expertise, we offer a seamless approach to utility and infrastructure delivery.

- Conduits, pits, and footings for traffic signals, lighting, and CCTV.
- Electrical and communications installation, upgrades, and repairs.
- Integrated civil and electrical delivery to reduce project risk and interface challenges.

Key Project

The People's Esplanade Pop-Up in Surfers Paradise – Roadworks Package

Design and construction of roadworks package to enable road changes including the closure of the Surfers Paradise Esplanade as part of the 'The People's Esplanade Pop-Up' in Surfers Paradise for the City of Gold Coast.

The works included road widening, new kerb and channel, pavement, asphalt surfacing, signage and pavement markings.
