### **Roesner and Hamilton Engineering Acquires ERDS to Strengthen Consultancy Business**

**[Gold Coast, 21 January 2025]** – Roesner and Hamilton, a leading provider of civil and electrical consulting engineering services, is proud to announce the acquisition of ERDS (Electrical Reticulation Design Services), a respected electrical engineering firm with nearly three decades of industry expertise. This acquisition represents an exciting milestone, positioning Roesner and Hamilton to redefine consulting engineering services in Southeast Queensland.

By integrating ERDS's wealth of experience and proven reputation for excellence, Roesner and Hamilton enhances its consultancy portfolio, particularly in electrical engineering. Recognised as an 'A' rated consultant for Energex and Ergon Energy, ERDS has earned acclaim for its technical expertise and solid relationships with both public organisations and private clients.

“We are thrilled to welcome the talented team from ERDS into the Roesner and Hamilton family,” said Shaun Hamilton, Co-founder and Director of Roesner and Hamilton. “This acquisition provides an opportunity to better serve our clients and expand our civil and electrical engineering services across the region.”

ERDS has built a solid reputation over the years, offering services to organisations like DTMR, Energex, and Ergon Energy, as well as various private firms. The team will continue to operate from its Brisbane office, ensuring seamless service continuity while integrating into the Roesner and Hamilton group.

“Merging with Roesner and Hamilton is a natural progression for ERDS,” said Merv Roseler, Founder of ERDS. “Their forward-thinking approach and expanded resources will allow the expertise and relationships ERDS has built over the years to flourish under their leadership. We’re proud to be handing over to a company that shares our commitment to quality and innovation.”

Roesner and Hamilton’s strategic Brisbane office will enhance the firm’s operations across Southeast Queensland, enabling a stronger team of over 50 skilled professionals. This expansion positions the company to meet growing client demand and offer a broader range of engineering services, particularly in electrical engineering.

This acquisition solidifies Roesner and Hamilton’s mission to be a leader in civil and electrical engineering services in Southeast Queensland. By combining the strengths of both teams, the firm will continue delivering high-quality, innovative solutions, ensuring ongoing growth and success.
