Dine4Dinners® reaches milestone of 100,000 meals donated to combat hunger
One-quarter of organization's profits goes to feed people in need

LINDSTROM, Minn. — *Dine4Dinners®*, a newly launched organization with a focus on giving back to combat hunger, hits milestone of 104,000+ meals donated in eighteen months of operation.

Founder and owner Carline Bengtsson launched *Dine4Dinners®* to pursue her passion of helping others by creating memorable meals. Customers choose their experience ranging from brunch to dinner. They and their guests sit down to a gourmet in-home restaurant style dining experience. Experiences translate to paying it forward. One-quarter of the net proceeds go to organizations that provide meals for those in need through dependable, reliable, and sustainable sources.

Several food organizations were beneficiaries of donations in helping to feed people locally and across the country. Eighty percent of the total donations were given to the following five food organizations: [Feed My Starving Children](#), [Meals From The Heart](#), [Feeding America](#), [Second Harvest Heartland](#), and [Feeding South Florida](#).

Through Bengtsson's community involvement, several organizations were also beneficiaries of donated dining experiences in support their annual fund raising for their respective causes. These organizations included [Second Harvest Heartland](#), [Vocal Essence](#), [Ordway](#), [St. Agnes School](#), and [American Heart Association](#).

Bengtsson's heartfelt message to clients at the end of 2021 was the following, "... may there be **Peace** in your heart; **Hope** for brighter tomorrows; and **Love** as the greatest gesture in all we do together to help solve hunger in our communities. 'Thanks for your support of the mission and here's to more breathtaking Dine4Dinners® moments in 2022 towards combating hunger until all are fed!'"

About Dine4Dinners®

Dine4Dinners® is dedicated to combating hunger in Minnesota and beyond through partnerships with organizations that provide meals for those in need of daily nourishment through dependable, reliable, and sustainable sources. Learn more at dine4dinners.org.
