The Dimplex
Electric Fires Collection

EN

Why Dimplex?

Millions of people around the world enjoy the comfort we bring every day with our Decorative Electric Fireplaces. For over 50 years our customers and partners have relied on our people, products, and brand, to deliver atmosphere in a safe and sustainable way, with no compromise.

Our track record of bringing innovation, being first in market and opening new categories is driven by our desire to challenge the status quo and find better solutions to provide the comfort and ambience to enhance millions of lives, working closely and openly with our trade partners and customers.

Dimplex, Experience Better Living

Why Dimplex in short

- 50 years of experience in Electric Fireplaces: this is our focal point, no distraction and complete commitment to deliver the ideal solution for each customer.
- Patented technologies: all our flame technologies are patented and are the result of continuous investments and determination to bring the perfect atmosphere to your home.
- Complete product offer: we have the widest offer in the market to satisfy all needs, from plug & play to integrated solutions.
- Trusted service: our network is specialized in Electric Fireplaces and provides an efficient and collaborative support.
- Comfort and sustainability, with no compromise: we are devoted to bring the most sustainable fireplace experience to all homes, with 100% safety and zero impact on the environment.

www.dimplexfires.com

Why choose an electric fireplace?

A decorative electric fireplace is the perfect solution when seeking an instant enhancement in any environment, whether it be in a home or a public space.

Ease of use: Enjoy your fireplace whenever you wish, simply by pressing the remote-control button.

Can be installed anywhere: You have no constraints of smoke evacuation or thermal requirements; you can install your fireplace in any room, within a partition, inside a piece of furniture, or just by placing it.

No maintenance: No ashes to dispose of no insert glass to clean, and of course, no cleaning; you only need to relish the warm ambiance of your fireplace.

Safety: No emission of toxic gases, nor risk of fire.

Year-round usability: The heating function is independent of the flame effect. Therefore, you can enjoy the cozy atmosphere of your fireplace without heating when you don't need it.

Environmentally friendly: No use of fossil fuels.

No chimney flues needed: Consequently, you can install your fireplace at a lower cost and without location constraints.

Flame technologies

The warm, flickering glow of a fireplace creates a cozy and inviting atmosphere in any home. Dimplex, a pioneering brand in the electric fireplace industry, offers a diverse range of cutting-edge flame effect technologies to suit every preference and home décor. The Dimplex flame effect technologies are: Optiflame®, Optimyst®, and Opti-V®.

Optiflame

Optiflame® is the original Dimplex electric flame effect, and revolutionised the electric fire market when first launched in 1988. It creates a mesmerising and lifelike flame that provides warmth and ambiance in any room, with complete safety and the peace of mind of a maintenance free, electric solution. Endlessly refined and continually evolving, Optiflame® remains the world's most popular electric flame technology.

Optimyst

Optimyst® is the world's most realistic 3D electric flame effect for those looking for a truly authentic experience, combined with the safety and low maintenance of an electric solution. Patented by Dimplex, it offers a flame experience that can be enjoyed from all angles, making it perfect for stunning room dividers and see-through fireplaces. This unique flame effect is generated by an innovative combination of cold water vapour and light.

Opti-V

Opti-V® is the first and original virtual flame technology, patented by Dimplex. This stunningly authentic fire experience requires no maintenance and delivers a flame image equal to that of a traditional fire, with no emissions and in total safety. It delivers a virtually perfect flame effect through a magic combination of High Definition video and LEDs.

Cassettes / Engines

Cassette 400/600 LED

230V/50Hz | 125 Watt

Experience Better Living

Cassettes

The Cassette 400/600 LED inset fire unit not only surprises with its free floating flame and smoke effect, its modest size and variable flame intensity make it highly suitable for 'endlessly' creative interior solutions: placed as a single unit in a table or inside a gas or wood fireplace, or as a line of fire by simply putting several units alongside each other. The only connection you need is 230V. Just fill the reservoir with fresh water and click on the remote for hours of cosy ambiance, over and over again.

- Ideal for creative projects, to be installed in furniture or used for other decorative purposes
- Easy-fill water tank, offers around 8-10 hours of continuous operation before refilling is required
- View of the fire from 4 sides
- Newly developed with LED lights for lower power consumption with a longer service life
- Crackling logs sound effects with adjustable volume
- Logset available as an accessory

All-round view.

Optimyst flame technology, flame patterns by cold water vapour.

Surprising by the floating flame and smoke effect and variable flame intensity.

Enjoy the unique charm of a fireplace 365 days a year using the flames without the heat.

Flames and lamps use energy-efficient LEDs that require no maintenance.

Product is delivered without decoration, but can be decorated with a wood set (optional to be ordered).

Control all functions of the fireplace from the comfort of your chair.

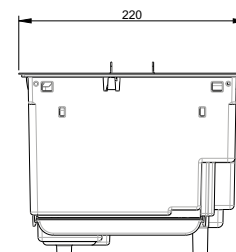

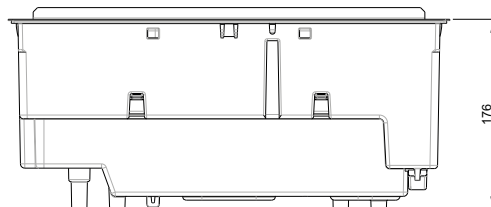

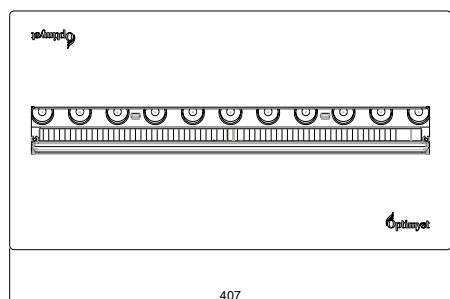

Very suitable for installation.

Juneau (XL) Multi

230V/50Hz | 200 / 450 Watt

Experience Better Living

Multi-colour!

Cassettes

The Juneau and Juneau XL Multicolour fireplaces bring a unique, realistic flame experience to any space. Featuring the patented 3D Optimyst flame effect and a lifelike logset, these units are perfect for enhancing existing mantels or creating new ones. The Juneau is a plug and play product and with easy front-drawer water refills, maintaining the captivating flame display is effortless. The Juneau, as the smaller model, fits snugly into smaller spaces. The Albany Multi is another great option to bring back an old fireplace back to life with 3D Optimyst flames and even provides heat, although it requires more installation effort due to its surround. Ideal for hospitality settings, the Juneau and Juneau XL Multi offer a simple yet luxurious fireplace ambiance.

- Perfect for installation projects, designed to fit custom-made frames or fireplaces.
- Easy-to-fill water tank provides 8-10 hours of continuous operation before needing a refill.
- With a drawer at the front, refilling the water reservoir is a simple task
- An all-round fire view that is safe to touch
- Realistic logset included / Includes a fixed logset for optimal ease of use.
- With Flame connect APP

Ignite Ultra 40 | 50 | 60 | 74

230V/50Hz | 30 / 36 / 43 / 51 Watt

Built In

The Ignite Ultra is the latest innovation from Dimplex combining cutting edge technology with an elegant modern design for a true state-of-the-art electric fire which will transform any home. This stylish fire boasts the next generation of Optiflame technology, delivering a realistic electric fire that will ignite all your senses and truly captivate you. The Ignite Ultra's flames dance and flicker like real fire and are enhanced by the pulsating and glowing logs, along with the crackling sounds, adding to the authentic fire experience. The large viewing window of 43,2 cm allows you to enjoy the enchanting flames, which create a stunning fireside glow and add warmth and atmosphere to any room. Available in a choice of sizes you can choose from three layout options: a single glass panel for a striking front-facing fire, two panels for a dynamic corner installation, or three panels for a truly panoramic effect. Dimplex's ComfortSaver technology ensures energy-efficient heating, reducing power consumption without compromising warmth and comfort.

- **Advanced flame technology** - experience a new generation of patented Optiflame technology, delivering a highly realistic and stunning flame effect
- **Realistic glowing logs** - features pulsating logs enhanced with inner glow technology that pulse in rhythm with the dancing flames
- **Crackling sound effects** - enrich the sensory experience of your fireplace with the wood crackling sound
- **Choice of installation options** - 1, 2 or 3-sided fireplace, the possibilities for customization are endless
- **Patented ComfortSaver technology** - energy efficient heater offering up to 11% saving on energy costs
- **Flame Connect App** - change the fire experience to your liking all by the touch of a button

Ignite Bold 50 | 60 | 74

230V/50Hz | 20 / 23 / 27 Watt

Built In

Designed to impress, the Ignite Bold is a stunningly realistic electric fire infusing atmosphere and warmth into any room. This model comes in three different sizes, 50", 60", and 74", and with the unique linking kit, you can connect multiple fires together to create an even longer fireplace, making the Ignite Bold the perfect solution for both domestic and commercial applications. Combining design Inspiration with the very latest technologies, this stylish fire provides an eye-catching flame experience through the Optiflame effect, originally crafted by Dimplex. This modern, built-in fire comes with a mirror effect that increases the depth of the fire, plus with the high viewing glass, you will be captivated by the mesmerizing flames dancing over the realistic logs providing a warming glow.

- **Bigger better tinted glass** - offering a panoramic view of the mesmerizing flames from every angle
- **Choice of installation options** – 1, 2 or 3-sided fireplace, the possibilities for customization are endless
- **Patented ComfortSaver technology** – energy efficient heater offering up to 11% saving on energy costs
- **Flame Connect App** – change the fire experience to your liking all by the touch of a button
- **Fully customizable** – allowing you to select flame and media bed colour, brightness and flame speed to your preference
- **Smart self-diagnostics** - Integrated smart technology which enhances the performance of your fire by providing maintenance and operation feedback Comes with patented ComfortSaver® technology, offering up to 11% saving

Vista 70 | 130

230V/50Hz | 35 / 70 Watt

Experience Better Living

Built In

The Vista is the perfect blend of rich flame experience and space-saving design. With sparks jumping off glowing logs and the crackling sound of a wood fire, the Vista gives you a lifelike flickering flame effect. Created with Opti-Virtual® technology, brought to you by the original inventors of the Virtual flame technology. Choose from a 3-sided or front-facing option, both with a stunning 40cm viewing window and limited installation depth. No compromises! Coziness meets functionality with the thermostatic heater, providing warmth and comfort at your fingertips. Even when the fire is off, the ceramic logs and decoration create a beautiful focal point.

- Opti-V flame technology; the first realistic virtual flame technology on the market, patented by Dimplex.
- Realistic log set with glowing LED lights, stunning even when the fire is off
- Available in 1- and 3-sided option
- Flame effect with heating function for year-round enjoyment

1 or 3-sided fireplace.

The first virtual flame technology on the market, patented by Dimplex.

Blended 3D technology creates enchantingly beautiful flames.

Virtual technology and LED backlight produce lifelike fire effects, enhancing room ambiance in any situation.

Product includes fixed logs, but Opti-Virtual technique creates an illusion of logs both in front and behind flames.

Powerful fan-assisted heating by safe element that provides additional heating on demand.

Control all functions of the fireplace from the comfort of your chair.

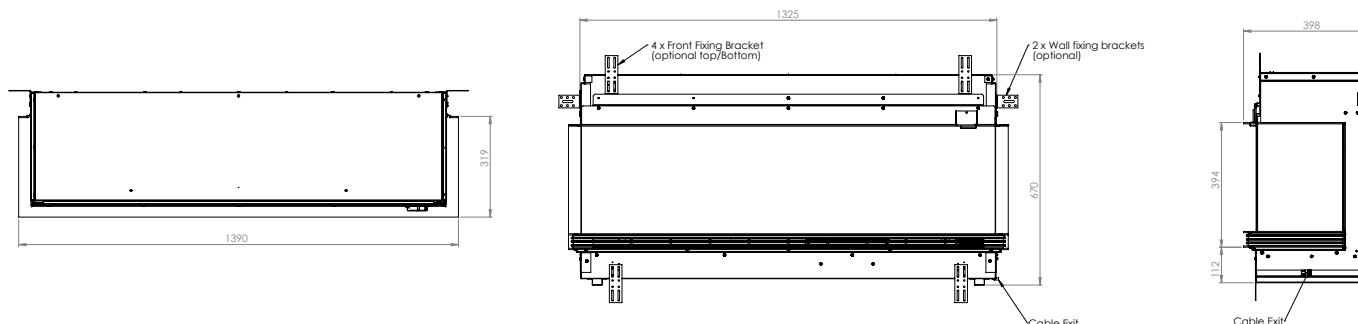

Standard slatted backpanel enhances realism and visual depth.

Vivente Plus 75 | 100 | 150

230V/50Hz | 20 / 28 / 40 Watt

Experience Better Living

Built In

Vivente Plus brings you the most advanced combination of comfort and energy efficiency. With our innovative Optiflame technology, combined with a unique crackling sound and an authentic set of real and ceramic logs, it creates an unrivalled, lifelike fire experience. Featuring energy-saving technologies such as ComfortSaver, offering savings of up to 11%. Meanwhile, Smart Sense technology detects movement in the room and automatically switches the fire off when you're not there. With three sizes and layout options, finding the perfect fire for your home or venue is a breeze and with full control of your fire via smartphone, you can create the perfect atmosphere anytime.

- With three size and layout options
- SmartSense: auto-off feature saves energy by detecting room activity
- ComfortSaver: Maintains room temperature and saves up to 11% energy
- Optional: Black Back Panel for even more intense flames
- With Flame Connect App
- With anti-reflective glass and real crackling fire sounds

 3 installation options. Can be built in as a 1, 2 or 3-sided fireplace.

 Optiflame technology, soothing flames with a lit glow bed.

 Fully adjustable fire image with high-contrast flames for a surprisingly deep and lifelike effect.

 Flames and lamps use energy-efficient LEDs that require no maintenance.

 Comes as standard with an authentic logset.

 Colour alternating flame effects.

 Powerful fan-assisted heating by safe element that provides additional heating on demand.

 Flame Connect app available for smartphone.

 Thanks to the reflective back panel, the flames will be even more intensely

 7 Day Programmable Timer.

3 Step Multi Optimyst

230V/50Hz | 260 Watt

Experience Better Living

Multi-colour!

Built In

The 3 Step Multi Optimyst frameless fireplace offers multiple installation options to perfectly match your interior design and layout. With three layout options and fire created by patented Optimyst cold water vapour and multicolour LED lighting, it can provide a stunning fire view from different angles. It's safe to use, emitting no gas or ashes, and easy to control and personalise using its remote or app. You can enjoy the flame effect all year round, with the option to activate the heating function and crackling fire sound for added cosiness. It comes equipped with a drawer to easily refill water, for a complete stress-free experience.

- Frameless insert fireplace with three-sided fire view
- Can also be installed as one-sided or two-sided
- Flame effect with optional heating function for year-round enjoyment
- Realistic logset included
- With a drawer at the front, refilling the water reservoir is a simple task
- Comfort\$aver: Maintains room temperature and saves up to 11% energy
- With Flame Connect App

3 installation options. Can be built in as a 1, 2 or 3-sided fireplace.

Optimyst flame technology, flame patterns by cold water vapour.

Surprising by the floating flame and smoke effect and variable flame intensity.

Flames and lamps use energy-efficient LEDs that require no maintenance.

Comes as standard with a logset.

The colours of the flame can be adjusted to the colours blue, violet, red, aquamarine or change the colours to a mix by using the Flame Connect app.

Flame Connect app available for smartphone.

Sound effect of crackling wood fire.

7 Day Programmable Timer.

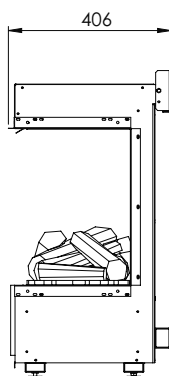

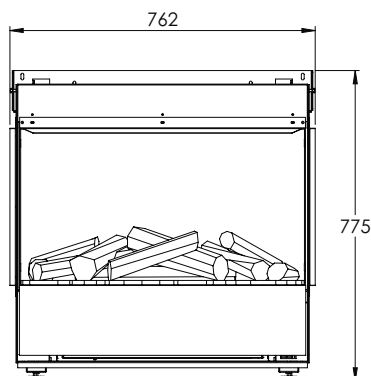

Very suitable for installation.

Albany Multi Optimyst

230V/50Hz | 260 Watt

Experience Better Living

Built In

The Albany Multicolour fireplace combines classic elegance with Dimplex's patented 3D Optimyst flames, creating the most realistic electric fire for enhancing existing mantels or designing new ones. With built-in thermostatic heating, it offers adjustable warmth on demand, ideal for cozy, inviting spaces. Its easy-access front-drawer system allows quick water refilling, powering the stunning flame effect. While the Albany provides both ambiance and warmth, the Juneau and Juneau XL Multicolour models also offer breathtaking 3D flames that can bring old fireplaces to life. These models are even easier to install, making them perfect for spaces where adding heat isn't necessary.

- Modern inset fire designed to be installed into a bespoke fireplace or wall
- Easy-to-fill water tank provides 8-10 hours of continuous operation before needing a refill.
- With a drawer at the front, refilling the water reservoir is a simple task
- Flame effect with optional heating function for year-round enjoyment
- Realistic logset included / Includes a fixed logset for optimal ease of use.
- With Flame connect APP

Logset 20'

230V/50Hz | 9 Watt

Experience Better Living

Freestanding

The Logset 20" by Dimplex is an electric fire system designed to instantly revive your non-active fireplace. Very easy to install, safe, maintenance free and requiring surprisingly little energy. A great way to bring back the fascination of flames moving upwards from the glowing logs, reinstalling your fireplace as a focal point, for great moments around the fire. Fitted with ambient light functions, a heater and even a remote, to let you enjoy your fireplace comfortably at each moment of the day and year.

- Adjustable brightness level to suit the desired ambience
- Mirage Flame panel - partially frosted acrylic panel which works better than a mirror, showing only lifelike flames and no reflections
- The 360° light adds flickering light to enhance the firelight effect
- Enjoy the unique charm of the fireplace 365 days a year using the flames without the heat

All-round view.

Optiflame technology, calming flames above the colourful glow bed.

Fully adjustable fire image with high-contrast flames for a surprisingly deep and lifelike effect.

Enjoy the unique charm of a fireplace 365 days a year using the flames without the heat.

Flames and lamps use energy-efficient LEDs that require no maintenance.

Control all functions of the fireplace from the comfort of your chair.

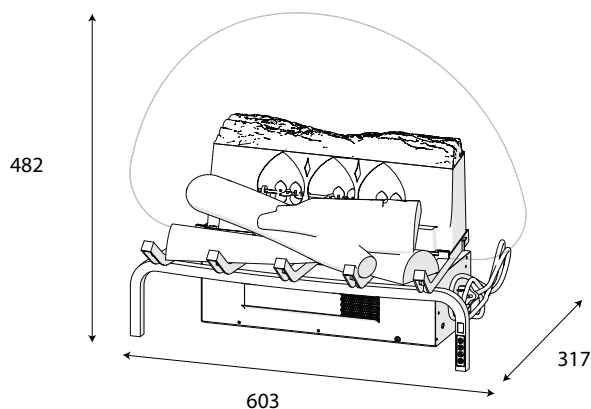

Easy to connect to a standard socket for instant atmosphere.

Belgravia

230V/50Hz | 2000 Watt

Experience Better Living

Freestanding

The Belgravia is a beautifully crafted, classic and timeless stove fireplace that effortlessly complements a wide variety of interior styles — from traditional and rustic to contemporary and minimalist. Its elegant design and high-quality finish make it a striking focal point in any room. At the heart of the Belgravia is the advanced and proven Opti-V® technology, delivering an incredibly realistic flame effect that brings warmth and ambiance to your living space. With lifelike crackling sounds and sparks that mimic a real wood-burning fire, the experience is both immersive and comforting.

The model is enhanced with clear glass in the door, offering an unobstructed view of the mesmerizing flames. The integrated top lighting subtly highlights the fireplace interior, further enhancing the depth and realism of the fire effect, even in low light conditions. To complete the experience, the Belgravia includes a built-in heating element that not only adds visual warmth but also provides a functional source of heat — making it as practical as it is visually stunning.

- Authentic look of cast iron stove with a metal housing
- Clear glass door that can be opened, for an unobstructed flame view
- Integrated top lighting enhances flame depth and ambiance
- Built-in heater adds both warmth and functionality
- Digital thermostat for temperature adjustment
- Crackling logs sound effects with adjustable volume

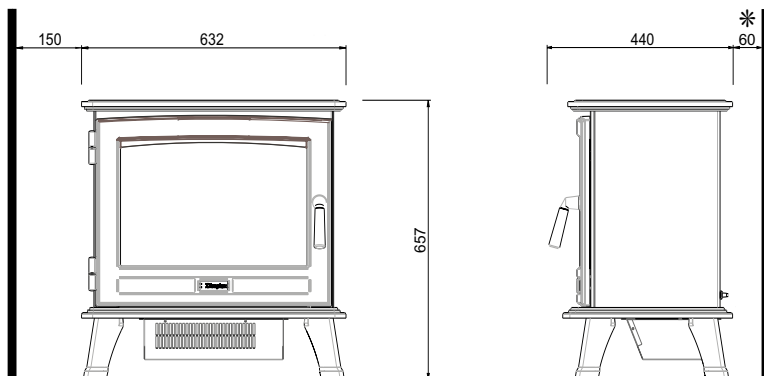

-  One-sided decorative fireplace.
-  Opti-V flame technology, an advanced combination of HDTV, energy efficient LED technology and a lifelike fireplace interior.
-  Most authentic flame image creates enchantingly beautiful flames.
-  The use of an LCD screen creates an energy-efficient flame image that requires no maintenance.
-  Powerful fan-assisted heating by safe element that provides additional heating on demand.
-  Control all functions of the fireplace from the comfort of your chair.
-  Fireplace can also be operated via button display on the fireplace.
-  Easy to connect to a standard socket for instant atmosphere.

Mapleton 80 | 100

230V/50Hz | 125 Watt

Experience Better Living

Freestanding

Crafted from solid cast iron and featuring three-sided glass, the Mapleton brings the authentic charm of a real fire into any home—without the inconvenience of wood or gas. Its classic design makes it a striking centrepiece that blends effortlessly into both traditional and contemporary interiors.

Inside, Dimplex's patented Optimyst® technology delivers a stunning 3D flame effect, enhanced by a lifelike log set and crackling sound. The result is an incredibly realistic fire experience that appeals to all the senses.

With the added comfort of thermostatic heating and simple operation, the Mapleton is more than just an electric stove—it's a perfect combination of style, warmth, and ease of use. For those who desire the look of a traditional wood-burning stove, an optional flue collar allows the addition of a decorative stove pipe, completing the classic fireplace aesthetic.

- Unique 3-sided view of the realistic Optimyst® flame effect.
- Robust cast iron housing for an authentic look.
- Adjustable thermostatic heating for personalized comfort.
- Easy water refill via the cast iron door.
- Optional flue collar for a stylish flue pipe.

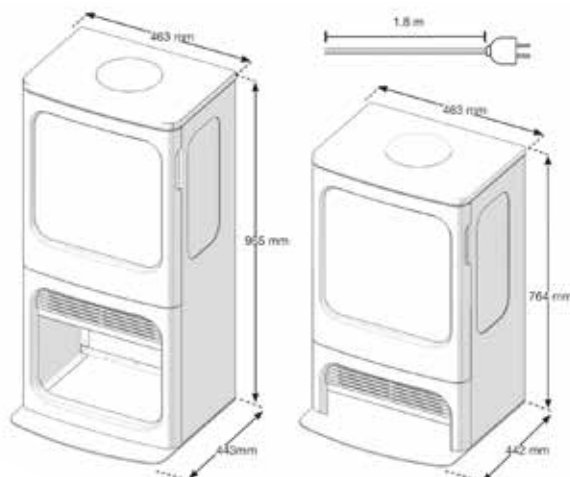

-  Optimyst flame technology, flame patterns by cold water vapour.
-  Surprising by the floating flame and smoke effect and variable flame intensity.
-  Enjoy the unique charm of a fireplace 365 days a year using the flames without the heat.
-  Flames and lamps use energy-efficient LEDs that require no maintenance.
-  Comes as standard with a logset.
-  Powerful fan-assisted heating by safe element that provides additional heating on demand.
-  Standard slatted backpanel enhances realism and visual depth.
-  Sound effect of crackling wood fire.
-  Control all functions of the fireplace from the comfort of your chair.
-  Easy to connect to a standard socket for instant atmosphere.
