A Nation Without Uncontested Elections

Nearly half of U.S. elections go uncontested, especially in local and congressional races. Dr.

Trump

has launched a nationwide initiative to eliminate uncontested races for the upcoming 120th Congressional cycle.

- Resident Agents are now stationed in all 94 Federal Districts.

- Under Citizens United v. FEC, corporations have standing -- and as a result, VOTUS, a corporate

citizen, is now active in every Federal Court jurisdiction.

- This movement is in full compliance with the latest Supreme Court rulings on political access and

digital speech.
