GRILLS

The cabin has use of a charcoal grill. Please use caution when grilling at the cabin. The grills we provide will get very hot especially when the cover is left closed. **DO NOT LEAVE GRILLS UNATTENDED WHEN GRILLING.** This may cause your food to burn. We clean each grill after every guest but there may be grease in the bottom of the grill. If the grill is left on and unattended this grease may flame and cause burning of food. DO NOT dump hot coals on the ground or put them in the trash cans.

FIRE PITS

The cabin has its own fire pit area. **DO NOT throw cans or trash in the fire pit.** DO NOT disassemble or move the fire pit. **Do not put any non-combustible items in the fire pit.**

OUTDOOR PROPERTY

Carter Creek Retreat is located in the middle of 20 wooded acres. We do not mind if you would like to hike the property within the fenced boundaries. Most of the property is within a barbed wire fence, with the exception of one portion of the east boundary. This portion does not separate the Carter Creek property from the neighbor's pond. Please do not disturb nor trespass onto the pond or onto the neighbor's property.

SECURITY CAMERAS

There is one exterior security camera located on the property. The camera is to help keep guests secure from property theft and is only surveilling the parking area. There are **no** interior cameras on the property.

WI-FI INTERNET CELL SERVICE

Your cabin offers free Starlink Wifi. Please understand that we are in a rural area and internet service can sometimes be unstable. Many times, if there is bad weather or if the service provider is having issues, the service may go down. The performance of the Wifi is out of our control, and no refunds will be given due to the instability of the network. No refunds will be given for outages, content, lack of content, speed, access problems, etc. There is limited cell phone service in the area, so guests may need to use Wifi calling. Please be aware that Wifi calling may not work if you travel too far away from the cabin.

Internet is provided by Starlink:

LOCKED CLOSETS

AMENITIES

The cabins managed by C21PRE are privately owned, and the amenities are provided by the owner of the cabin. Sometimes, things get broken or changed without our knowledge. The amenities list is subject to change anytime at the discretion of the cabin owner. We make every effort to keep the amenities list up to date. Picture accuracy is subject to change as amenities may be added or removed after pictures were taken. Please check the amenities list or call the C21PRE office number to verify current amenities.

WILDLIFE AND OTHER “CRITTERS”

Some of our guests have never vacationed in the woods, so we thought we would share some insights about the critters you may encounter during your stay.

You may see rabbits, raccoons, possums, squirrels, deer, etc. Raccoons may come onto the decks at night, **so please be sure to keep your trash can lids secured. Please do not engage with any of the wildlife, and do not shoot the deer or any critters you encounter.** For your protection, take caution against poison ivy, poison oak and poisonous snakes, such as copperheads and rattlesnakes. Repellant for poison ivy and bug repellant are suggested. Chiggers are a potential nuisance in the woods, so it's a good idea to stay away from tall grass in the warmer months.

Due to constant weather fluctuations, we typically experience insects at different times of the year, and some will be around the cabin since we are in the wilderness. However, rapid changes in temperature from cold/cool back to hot/humid may cause them to occasionally swarm around the cabins. If doors and windows are left open, they will find their way inside! In the hottest part of the year, ants may come inside looking for water in kitchens and bathrooms. Also, you might hear insects (and frogs) making their typical sounds during the night. Our cabins are set up on an extermination program through a professional pest control service and are checked regularly.

When nights begin to cool, wasps try to find a warm place to stay. This may occur in the fall and continue until weather gets warm again in the spring. You may see them beginning in the late afternoon as the sun goes down. **It does not mean there is a nest!** Wasps go dormant when the cabin temperature is cooler. PLEASE do not spray windows with wasp spray. Wasps are a pesky part of nature, and if you see a nest, let us know and we will take care of it. If you do not see a nest, please know they are searching for a warm place to stay until warmer weather – we have no control over them!

Due to the natural habitation of the forest, **no refunds or compensation will be given for any problems resulting from pests inside or outside the cabin.** Do not feed animals you may see around the cabin nor permit them to enter the cabin. Do not allow children to play with, pet or feed stray animals. We are not responsible for any wildlife or animal encounters of any kind or for medical bills resulting from injuries resulting from encounters with wildlife or stray animals

We just like to ensure our guests understand that this is the great outdoors, so nature is to be expected. We hope you enjoy your stay and that the insects don't BUG you too much!

WEATHER AND ENVIRONMENTAL CONDITIONS

We are not able to give refunds due to inclement weather and/or early departure. We will rebook a reservation if National Weather Service or State Weather Services issues advisories of all road closures that do not allow you to travel between your point of departure and our properties. Prescribed or controlled burns may be conducted in the area by the US Forest Service. C21PRE is not able to provide refunds or cancellations due to environmental conditions from prescribed or controlled burns. Guests are encouraged to purchase travel insurance.

USE OF CABIN PROPERTY

The cabin is for your enjoyment and relaxation as well as an investment for each cabin owner. Any violation of these policies will result in eviction and or a fee. The fee is determined by the damage done to said property.

LIABILITY

All outdoor activities involve certain inherent risk of injury up to and including death. Every effort will be made to secure and make safe all facilities under our management. It is expressly understood and agreed that neither the owner, nor the management company of said premises, shall be liable for any damages or injuries to guest, guest's guests or their families, or to any of owner's property from whatever cause arising from the occupancy or use of the premises.
