Eating conditions vary from area to area. Every effort is made to provide healthy balanced diets on the trips. Should you have special dietary needs please make note of these on your Medical Form. If those special dietary needs do not allow you to eat what is set before you, you will be responsible for bringing your own food supplements.

NO NEWS IS GOOD NEWS. Mission trips are one of the most exciting adventures that life offers. In order to keep them focused and functional we have adopted a NO NEWS IS GOOD NEWS policy. That simply states that we have communication channels that are available to us for emergency purposes but are not used on a daily basis.

Team members are not guaranteed or encouraged communication with home. The team will have the means to do that if a need arises. Past experiences have shown that incomplete information has been very destructive when it has been passed on to homes of the participants.

When teams arrive in their country as soon as possible (electrical outages and phone line difficulties can delay this) contact will be made with the contact numbers at the MST offices. You may check their web site MSTGO.com or office phone at 360-456-5624. You can also contact this number to pass important information on to participants realizing that field conditions may delay this information for several days.

I also give MST Ministries the right to use my picture, voice and/or testimony in any type of promotional or advertising materials.

Only affix your seal to this document if the signing parties are in full agreement with all portions.
