Proposed Construction:

1) Nature of work (check which is applicable):

Addition ___ Alteration ___ Repair ___ Removal ___ Demolition ___ Other _____

If a dwelling, number of units: _____ If garage, number of cars: _____

If business, commercial or mixed occupancy, specify nature and extent of each type or use:

Briefly describe proposed construction (use the back of this page if more space is needed):

2) Estimated construction cost: \$ _____

Estimated cost for the work described in the Application for Building Permit includes the cost of all of the construction and other work done in connection therewith, exclusive of the land. If the final cost exceeds the estimated cost an addition fee may be required before issuance of a Certificate of Occupancy/Compliance.

APPLICATION IS HEREBY MADE TO THE Code Enforcement Department for the issuance of a Building Permit pursuant to the New York State Codes and the Zoning Law of the Village of Bloomingburg for the construction of buildings, additions, alterations, for the removal or demolition or use of property.

The applicant agrees to comply with all applicable laws, ordinances and regulations. The applicant agrees that a certificate of occupancy will not be issued unless each inspection listed on the attached "Required Inspections" list has been satisfactorily completed by the Code Enforcement Officer/recorded by the Building Department as "inspection satisfactorily completed/passed."

Building Permit Application Information Sheet

Please read and understand this information before signing your application

The permit applicant and property owner:

1. Accepts the responsibility to perform all work in accordance to the description, plans, and specifications submitted. The applicant further agrees to perform all work in accordance with State and Local Building Codes and the local Zoning Ordinance.
2. Understands that all electrical work will be inspected by a certified third party electrical inspector and must call and arrange for inspections from one of the following approved agencies.

NY Electrical Inspections & Consulting	- John Wierl	- 845-343-6934 or 845-551-8466 (cell)
Tri-County Inspection Agency, Inc.	- Todd Klikus	- 570-729-7643 or 570-493-1229 (cell)
Switch-on Electric	- Frank X. Schmaus	- 845-733-4926 or 845-800-6909 (cell)
3. Will submit the appropriate proof of Workers Compensation.
4. Will submit the appropriate fees as listed in the attached fee schedule. Please make checks payable to the Village of Bloomingburg.
5. Understands that work covered by this application may not be commenced before issuance of a Building Permit.
6. Will notify the Building Department to schedule inspections and when the project is complete.
7. Understands that no building shall not be occupied or used in whole or part for any purpose whatever until a Certificate of Occupancy/Compliance has been granted by the Code Enforcement Department.
8. Understands that all permits issued by the Building Department shall expire if the work authorized has not commenced within six (6) months after date of issuance.

Documentation required with the building permit application:

- a) Two sets of plans **signed and stamped** by a design professional. One set of plans will be returned with the permit and must remain on site and available to the inspector.
- b) Plot Plan/Survey/Approved Site Plan. Please submit a plot plan to a scale of 1" equals 100' indicating street names, location and size of property; the location, size and setbacks of proposed building(s); and the locations of all existing buildings; and proposed well and septic locations. All distances should be measured from the nearest property line to the nearest part of the building. When submitting a Planning Board Approved site plan it must be signed as final and stamped by the Planning Board.

Inspections:

- a) A certificate of occupancy will not be issued unless the inspections listed on the attached "Required Inspections" list are scheduled by the applicant and performed plus passed by the Code Enforcement Official. The applicant shall close out all permits with an issuance of a certificate of occupancy by the Code Enforcement Official.
- b) Inspections must be scheduled by phone a minimum of 24 hours in advance.

Documentation needed for a Certificate of Occupancy/Compliance:

- a) An updated survey (if the footprint of a structure has changed).
 - c) Design professional affidavit signed and stamped if plans were submitted with the permit.
 - d) Third Party Final electrical certificate.
 - e) Final cost construction declaration.

Inspections required

Inspections must be scheduled (phone or email) a minimum of 24 hours in advance.

A certificate of occupancy will not be issued unless the following inspections are scheduled by the applicant and performed by the Code Enforcement Official. No two inspections can be combined:

Pre-permit site inspection	Date of Inspection _____
Soil Compaction	Date of Inspection _____
Footing form inspection	Date of Inspection _____
Foundation wall inspection	Date of Inspection _____
Foundation waterproofing inspection	Date of Inspection _____
Footing drain inspection	Date of inspection _____
Water and Sewer service inspection	Date of inspection _____
1. Both lines must be visible in approved trenches	
2. Water service and the building sewer shall be separated by 5 feet of undisturbed earth	
3. Water service must be under municipal pressure	
4. Water service line must be 42 inches below grade	
Pre-slab inspection (gravel, plastic, and wire mesh)	Date of Inspection _____
Framing inspection to include sheathing (exterior)	Date of Inspection _____
Roofing inspection	Date of Inspection _____
1. Weather shield 2 foot above the winter warm side of the exterior wall	
Gas line inspection	Date of Inspection _____
1. Tested at no less than 1 1/2 times the proposed maximum working pressure but not less than 3 psig. Test duration shall be not less than 1/2 hour for each 500 cubic feet of pipe volume.	
Electric rough (performed by a third party)	Date of Inspection _____
Plumbing rough	Date of Inspection _____
1. Water checked under pressure (Not less than 50 PSI or municipal pressure)	
2. Waste and Venting	water gravity test)
Fire inspection (fire stopping and fire caulk)	Date of Inspection _____
Insulation inspection	Date of Inspection _____
Sheetrock inspection (prior to taping and spackling)	Date of Inspection _____
Air infiltration/blower door test with NYS Certification	Date of Inspection _____
Final electrical inspection (performed by a third party)	Date of Inspection _____
Final inspection	Date of inspection _____

Chapter 228. Streets and Sidewalks

Article II. Mandatory Sidewalk Construction

§ 228-7. Sidewalk replacement requirement.

Upon construction of a new residential, commercial or industrial building or upon rehabilitation or renovation of an existing residential, commercial or industrial building when such rehabilitation or renovation results in an increase of 25% or more in the market value of such building, the owner of the subject premises shall cause to be constructed a sidewalk, within 60 days of the completion of such new construction or rehabilitation/renovation, in accordance with the specifications contained in this Local Law.

Chapter 228. Streets and Sidewalks

Article II. Mandatory Sidewalk Construction

§ 228-8. Materials for concrete sidewalks.

Materials for the construction of concrete sidewalks shall consist of the following:

A. Cement.

- (1) Cement shall be true portland cement and shall meet the requirements of the current Standard Specifications and Tests for Portland Cement adopted by the American Society for Testing Materials.
- (2) Cement shall be natural cement similar to that manufactured at Rosendale, New York.

B. Fine aggregate. Fine aggregate shall consist of sand having hard, strong, durable grains and shall be free from injurious amounts of dust, lumps, soft or flaky particles, shale, alkali and surface coatings and shall not contain injurious amounts of vegetable or other organic matter. Fine aggregate shall range in size from fine to coarse within the following limits:

- (1) Passing through a No. 4 sieve, not less than 85%.
- (2) Passing through a No. 50 sieve, not more than 30%.

C. Coarse aggregate. Coarse aggregate shall consist of crushed stone, gravel or other approved inert material with similar characteristics, or combinations thereof, having hard, strong, durable particles free from injurious amounts of soft, friable, thin elongated or laminated pieces, alkali or organic or other harmful matter. Coarse aggregate shall range in size from fine to coarse within the following limits:

- (1) Passing through a one-inch sieve, not less than 95%.
- (2) Passing through a No. 4 sieve, not more than 15%.
- (3) Passing through a No. 8 sieve, not more than 5%.

Section 1265.4. Sign/symbol.

- (a) Each new residential structure and each addition to or rehabilitation of an existing residential structure that utilizes truss type construction, pre-engineered wood construction and/or timber construction shall be identified by a sign/symbol in accordance with the provisions of this Part.
- (b) The sign/symbol required by this Part shall be affixed to the electric box attached to the exterior of the residential structure; provided, however, that:
 - (1) if affixing the sign/symbol to the electric box would obscure any meter on the electric box, or if the utility providing electric service to the residential structure does not allow the sign/symbol to be affixed to the electric box, the sign/symbol shall be affixed to the exterior wall of the residential structure at a point immediately adjacent to the electric box; and
 - (2) if no electric box is attached to the exterior of the residential structure or if, in the opinion of the authority having jurisdiction, the electric box attached to the exterior of the building is not located in a place likely to be seen by firefighters or other first responders responding to a fire or other emergency at the residential structure, the sign/symbol required by the Part shall be affixed to the exterior of the residential structure in a location approved by the authority having jurisdiction as a location likely to be seen by firefighters or other first responders responding to a fire or other emergency at the residential structure.
- (c) The sign/symbol required by this Part shall be affixed prior to the issuance of a certificate of occupancy or a certificate of compliance. The authority having jurisdiction shall not issue a certificate of occupancy or certificate of compliance until the sign/symbol required by the Part shall have been affixed.
- (d) The property owner shall be responsible for maintaining the sign/symbol required by this Part and shall promptly replace any such sign/symbol that is affixed to an electric box when any change or modification is made to such electric box. The property owner shall promptly replace the sign/symbol required by this Part if such sign/symbol is removed or becomes damaged, faded, worn or otherwise less conspicuous to firefighters or other first responders responding to a fire or other emergency at the residential structure. The property owner shall keep the area in the vicinity of the sign/symbol required by this Part clear of all plants, vegetation, and other obstructions that may hide or obscure such sign/symbol or otherwise cause such sign/symbol to be less conspicuous to firefighters or other first responders responding to a fire or other emergency at the residential structure.
- (e) The sign/symbol indicating the utilization of truss type construction, pre-engineered wood construction and/or timber construction shall comply with the requirements of this subdivision.

- (1) The sign/symbol shall consist of a circle six inches (154.2 mm) in diameter, with a stroke of width of ½ inch (12.7 mm). The background of the sign/symbol shall be reflective white in color. The circle and contents shall be reflective red in color, conforming to Pantone matching system (PMS) #187.
- (2) The sign/symbol shall be of sturdy, non-fading, weather resistant material; provided, however, that a sign/symbol applied directly to a door or sidelight may be a permanent non-fading sticker or decal.
- (3) The sign/symbol shall contain an alphabetic construction type designation to indicate the construction type of the residential structure, as follows:
 - (i) if the residential structure is subject to the provisions of the RCNYS, the construction type designation shall be "V" and
 - (ii) If the residential structure is subject to the provisions of BCNYS, the construction type designation shall be "I", "II", "III", "IV" or "V" to indicate the construction classification of the structure under section 602 of the BCNYS.
- (4) The sign/symbol shall contain an alphabetic location designation to indicate the location(s) containing truss type construction, pre-engineered wood construction and/or timber construction structural components, as follows:
 - (i) "F" shall mean floor framing, including girders and beams;
 - (ii) "R" shall mean roof framing; and
 - (iii) "FR" shall mean floor framing and roof framing.
- (5) The construction type designation shall be placed at the 12 o'clock position of the sign/symbol, over the location designation, which shall be placed at the six o'clock position of the sign/symbol.

Execution Law 5382b, Chapter 353 and Part 1265, Title 19 NYCRR.
