**THE LEADER WE NEED**

COUNTY COMMISSIONER • DISTRICT 4

★★★ GO GREEN FOR WORCESTER ★★★

Dear Worcester County residents,  
I am running for the District 4 County Commissioner seat to continue my lifelong commitment to serving this community.

Many years ago, Mr. Rogers said, "Life is for service." Those words have stayed with me and have guided my efforts to help make this community a better place to live, work and play.

For the past four years, I have had the honor of serving on the Berlin Town Council where I have tried to approach every challenge with common sense, collaboration, and respect for different viewpoints. Before that, and continuing today, I have spent 29 years as a community newspaper editor. That experience has given me a unique perspective and deep understanding of the issues facing our local governments — both past and present.

Throughout my adult life, I have worked to bring fairness, reason, and thoughtful discussion to the challenges facing our community. I consider myself a consensus builder, someone who believes progress comes from listening, collaboration, and practical solutions. I have a career of local involvement in this community that will serve me well in representative government.

I am seeking this position to bring a fresh and passionate voice to the District 4 seat and to serve the residents of Worcester County with integrity and dedication.

I respectfully ask for your vote and encourage you to reach out to me at any time. I pledge to be a listener, remain accessible, transparent, and committed to representing the best interests of our entire community. You will see me in the community because I promise, 'I WILL SHOW UP!'

REPRESENTING DISTRICT 4
