

**Patron Accessible Portable Technology Policy**

Patrons wishing to use the library's patron accessible portable technology, such as laptops, projectors, and sound equipment, must be at least 18-years-old and present a valid library card and a government-issued photographic identity card (such as a driver's license). This identification card will be held by the circulation staff until the equipment is returned. These materials are to be used inside the library only, and patrons are responsible for any damage to the equipment borrowed.

Approved March 15, 2016
