Steel Technology

Starts August 2026
Tuition and Fees Covered

About the Program

The AAS in Steel Industry Technology offers a powerful opportunity for students ready to step into one of the region's most vital industries. This exclusive program ensures personalized attention and hands-on training tailored to today's steel manufacturing needs.

Arkansas Northeastern College & CREST

Course Delivery

This program is a combination of online & live courses.

General Education courses will be offered on-line.

Steel Technology courses will take place Tuesdays and Thursdays 9 a.m.- 3 p.m. at 5501 Krueger Drive in Jonesboro.

2+2 Transfer Program

The transfer program makes the transition from ASUN to A-State simple. The goal is to give one a clear path to complete a four-year degree at A-State. We work closely on degree requirements and transfer of credits so one can focus less on red tape and more on achieving academic goals.

Qualifications

In order to qualify for covered tuition and fees, students must complete all ANC admissions and enrollment requirements.

AAS Steel Industry Technology Minimum Scores Required

	Math	English	Reading
ACT	15	15	15
Accuplacer	236A	235	235
	236Q
