

The Scientific Esthetics Symposium 2022

Educator Dossier Volume One

November 6th, 7th & 8th 2022

Dr. Gez Agolli MD, DrPH, ND

Dr Gez Agolli is the founder of Progressive Medical Centers & Progressive Medical Management (medical management organization) Progressive Nutracare, Co-founder Precision Point Diagnostics (High complexity Clia lab) Dr. Agolli is passionate about integrative medicine and believes that we are living in an exciting time of medical history. Why? Because medical science is finally recognizing that “Chronic” disease is not inherited but mostly due to a multitude of issues such immune deficiency, toxic exposure, inflammation, hormonal imbalance, nutritional deficiency, stress and gut dysbiosis. Therefore, Dr Agolli has devoted most of his professional career in developing integrative clinics that truly embrace this philosophy. Progressive Medical Center has grown to several locations over the years treating over 45,000 patients in the last 24 years with a professional staff of over 15 medical practitioners consisting of MDs, DOs, DCs, NDs, RDs and mid-level practitioners working together in concert providing a team approach for our patients. Dr Agolli hosted a weekly radio show “Progressive Medical hour of power!” for over 8 years, discussing current medical topics that educate and inform the public on cutting edge, evidenced based medical treatments and therapies. He is Board Certified in Integrative Medicine from The American Association of Integrative Medicine (BCIM), earned a Doctor of Medicine (MD) USAT Montserrat WI, Doctor of Naturopathic Medicine degree (NMD) from the United States School of Naturopathy and Allied Sciences (Completed 4,000 hours of didactic studies), as well as a Doctor of Philosophy (PhD) in Nutrition from First National University (Presented thesis on “Minerals...The spark plugs of Life”) and completed DrPH, Public Health from USAT, defended his Thesis/book to Dr Orien Tulp, MD PhD Chancellor, “Why Healthcare is not working in America” (published).

Dr Agolli also obtained Doctor of Pastoral Science & Medicine pastoral (Psc.D) license through Pastoral Medical Association which authorizes and directs him to provide pastoral services. He believes that we were all created in God's image and optimal health is achieved through a healthy balance of body, mind, and spirit. He has extensive training and experience in "Natural" medicine prior to entering medical school, thus making him a true integrative practitioner with a strong philosophy of getting to the root cause of medical conditions. During his medical training he has achieved extensive experience in the areas of natural pharmacology, prolozone injections, digestive disorders, natural hormone replacement, Naturopathic detoxification, herbal therapies, tissue mineral analysis, & functional medicine. He has been married to Donna for 33 years, father and grandfather. He and Donna host medical compromised children while they await life-altering surgery "Child spring international" Believes in mentoring other practitioners and serves the homeless and is part of the Big Brother teenage mentorship program for fatherless teenage boys.

Dr. Yuliya Borzykh PhD

MEDICAL SCIENCES DERMATOLOGIST AND COSMETOLOGIST

- 2000 - 2006 Ukraine, Medical University, GENERAL MEDICINE DEPARTMENT
- 2006-2009 - Internship, therapy, and cardiology
- 2009 - completed the Specialization in Dermatology and Cosmetology.
- 2015 - Ukraine, received a Ph.D. degree (skin and venereal diseases specialty) from the "Institute of Dermatology and Venerology of NAMS of Ukraine". The topic of the scientific work was - «Substantiation of therapeutic and preventive tactics in the treatment of hypertensive and keloid scars»
- Regularly attends international conferences and congresses: IMCAS, AMWC, etc.
- 2020 – Became Associate Professor, Department of Medicine, Kyiv International University
- 2021 - Receiving a second higher education degree in "Public Management and Administration in the Field of Health Care"
- Professional interest area is hypertrophic and keloid scars, psoriasis, acne, age management, combinations of regenerative DMK treatments with other modalities.
- 2017 - with the team of DMK Ukraine experts (Elena Lunina, Andriy Sotnik and Yuliya Borzykh) won in two nominations — «The Game Changer» and «Open — Medical» in the largest international competition of aesthetic medicine and cosmetology "The Skin Games"

Kris Campbell LE

Kris Campbell is a licensed esthetician, entrepreneur, and philanthropist. Kris is known as one of the leading voices in the treatment and nourishment of sensitive skin. She became a licensed Esthetician in 2002 and has been actively involved in the professional skincare industry ever since. Kris spent her early career working with many professional skincare brands at an FDA laboratory where she was Special Projects Manager and Director of Sales for 10 years. This is where Campbell identified a pressing need for high-quality skincare products for extremely sensitive and health-challenged skin. Kris founded Hale & Hush 2015. Hale & Hush was born out of the former TecNiche, a sensitive skincare brand that Kris purchased from Morag Currin in 2015. Since 2015, Hale & Hush has grown immensely and is now in 5,000 spas in 5 countries including the Waldorf Astoria.

Campbell is a respected pillar of the professional skin care community and has written for some of the most prominent trade journals such as: SkinINC, Lipgloss + Aftershave, Dermascope, SkinDeep, Les Nouvelles, NASNPRO, and the former Day Spa Magazine. A recognized thought leader on the topic of sensitive skin, Kris has been selected to speak and present for internationally respected organizations such as: The International Esthetics, Cosmetics and Spa Conference, The International Congress of Esthetics and Spa, Professional Beauty Association, Lipgloss + Aftershave, MECA, NASNPRO and the Esthetician Connection.

Kris ensures that Hale & Hush focuses on a philanthropic effort and works with Look Feel Fab and A New Daly Beginning. They also work with and support programs with hospitals such as: Rush Copley (IL) and Virginia Piper Cancer Center (AZ)

WEBSITE: <https://www.haleandhush.com>

Garrett Campbell RA

A biotechnology and molecular biologist, Garrett Campbell is employed by Primus Pharmaceuticals, a novel specialty prescription products company focused on unmet needs in dermatology and rheumatology, as a research and development analyst. His work on the Rx-tri lipid emollient is the #1 most prescribed in dermatology and has just been published in the Journal of Skin and will be presented at the fall Clinical Dermatology Conference. In these experiments, he has demonstrated how a prescription emollient cream used for atopic dermatitis, eczema and contact dermatitis repairs the stratum corneum dysfunction against microbial contamination.

Among his prior work, Mr. Campbell has co-lead the research and development of multiple dermatology products using an in-silico modeling, differential gene expression analyses on orphan diseases and skin barrier disorders such as congenital ichthyosis, plaque psoriasis, and atopic dermatitis to identify specific pathways in which to target molecular deficiencies which can be exploited to manage / treat the underlying disease. His work is the subject of several patents, and his current focus is characterizing severe unmet therapeutic needs affecting quality of life, how to enhance topical formulations to deliver next generations performance as life-cycle management, developing new standards of care by combining Rx medical devices with Rx drugs in chronic skin diseases. He furthers his work by looking to create innovative scientific and clinical study designs to demonstrate the comparative vs. effectiveness of breakthrough new skin therapies vs. existing drugs. His passion in translating science into real life QOL benefits in compromised and underserved patient populations.

Morag Currin LE

Morag Currin, founder, and president of Oncology Training International (OTI), was the first to supply the aesthetics industry with oncology aesthetics training based on a need to dispel the myth that aestheticians cannot provide safe services for people living with cancer and other health challenges. This integrative approach to cancer care takes into consideration a patient's identity and helps them regain a positive relationship with their body. Today, OTI is an internationally recognized brand.

Mórag Currin is a highly sought-after aesthetic educator with more than 27 years of spa industry experience and more than twelve years of training and training management experience. She pioneered the only Oncology Aesthetics® certification for salon/spa professionals and has set the standard in the fourteen different countries such as Australia, Brazil, Canada, Ireland, Israel, Italy, Malta, New Zealand, Philippines, South Korea, Switzerland, United Kingdom, United States, and her home country South Africa. She also is the author of *Oncology Esthetics: A Practitioner's Guide – Expanded Edition* (Allured Books, 2014) and *Health Challenged Skin: The Estheticians' Desk Reference* (Allured Books, 2012). She travels around the globe with her training and expertise, helping to raise the bar in the spa industry and to open the door to all people, regardless of skin type or health condition. Going beyond the world of aesthetics, Mórag continues to reach out to those suffering from a variety of health challenges through Equine Facilitated Wellness (EFW).

For too long, these industries have shied away from addressing all the needs of people living with cancer. Ignorance and a lack of knowledge has impeded salon/spa professionals from helping these cancer fighters and survivors – the very people who may benefit most from salon/spa services. When you consider as many as four in ten people will get cancer in their lifetimes – there is a demand based on the staggering reality of 23.6 million potentially new cases of cancer each year by 2030.

The training's offered by Oncology Training International (OTI) have been revolutionizing the salon/spa industry since 2007; and OTI continues to be a driving force to change this approach. People living with cancer and other comorbidities need to be afforded the most current information for optimum benefits. Trainings are offered in a number of variations: in-class; blended (online and in-class); and online. We take into considering most learning styles, budget, and time restraints.

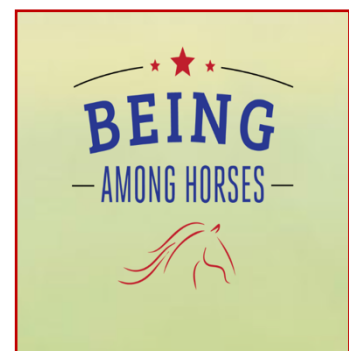

Whether you are a cancer survivor; a salon/spa professional, or healthcare professional – our training's will help you understand the “aesthetic” (physical) and emotional needs for clients with cancer, plus to overcome the challenges in providing them with salon/spa services. When doing so, we need to treat our clients properly – with respect, empathy, and compassion.

EQUINE ASSISTED LEARNING

Horses innately react to stimulus. They are kind and forgiving. They are sensitive, aware of their surroundings and their feedback is honest and instant. In a horse's world, boundaries are clear and easy to understand. Horses look for strong leadership and respect fair consequences. Unlike humans, horses are unable to over think a situation. They approach each interaction honestly and are willing to follow once there is respect and trust.

Horses are steadfast dance partners; what they have to say has the power to spur change.

Dr. Sonza Curtis MPAS, ND, PA-C

Dr. Sonza Curtis grew up in Germany and at an early age was influenced by the ways of natural healing and natural home remedies of her great-grandmother who was an herbalist and midwife. Her passion to blend the wisdom of natural medicine with the scientific foundation of western biomedicine began in 2006 when she graduated from the University of Nebraska Medical Center Physician Assistant Program.

She pursued her doctorate in Naturopathic Medicine trained and studied under the late Dr. Christian Gustafson who was one of the pioneers of Functional Medicine in the metro Atlanta area and graduated from Clayton College of Natural Health in 2010. She received her certification in Functional Medicine from the Institute of Functional Medicine in 2014. After consulting for other wellness centers for three years, she founded Three D Wellness in 2014 with the intention of focusing on functional and integrative medicine.

Dr. Sonza is a co- author of the e-book: *No More Band-Aids 2.0: Finding Answers in a Broken Medical System*. She spends time with her patients focusing on lifestyle, genetic, and environmental factors that can influence long-term health. Dr. Sonza is a busy mother of four and grandmother of four, serving in her community in wellness education, and conducts medical mission trips globally.

Three D Wellness specializes in personalized functional medicine for the mind, body, and spirit. Prevention and treatments are designed to address each patient's unique biological systems. This approach empowers patients and practitioners to achieve the highest expression of health by working in collaboration to address the underlying causes of disease.

The Scientific Esthetics Symposium™
November 6th, 7th & 8th 2022

Digestion & Detoxification

Dr. Sonza Curtis ND, PA-C
Functional Medicine
USA

Functional Medicine addresses the underlying causes of disease, using a systems-oriented approach and engaging both patient and practitioner in a therapeutic partnership. It is an evolution in the practice of medicine that better addresses the healthcare needs of the 21st century.

By shifting the traditional disease-centered focus of medical practice to a more patient-centered approach, functional medicine addresses the whole person, not just an isolated set of symptoms.

Functional Medicine practitioners spend time with their patients, listening to their histories and looking at the interactions among genetic, environmental and lifestyle factors that can influence long-term health and complex, chronic disease. In this way, functional medicine supports the unique expression of health and vitality for everyone.

“My goal is to practice quality medicine which combines my allopathic training (western) and naturopathic training resulting in total wellness. I truly believe that each one of us has the innate wisdom and abilities to heal from within, on a physical and emotional level, as well as a spiritual level. When our bodies are coordinated physically, emotionally, and spiritually, we heal faster and become healthier. I look forward to collaborating with you in making a change to a healthier lifestyle.” – Dr. Sonza Curtis

Rebecca Gadberry LE, MFSCC

Marketing Fellow of Society of Cosmetic Chemists

Rebecca Gadberry, LE, MFSCC, is a legendary skincare pioneer valued as one of the global skincare industry's preeminent ingredient authorities. At the forefront of many of our most popular skin care trends (*AHAs, barrier repair, multi-antioxidants, retinols, vitamin C's, pollution protection, free-from lists, blue light protection, peptides, microbiome, epigenetics, bespoke, and on and on*) as well as the original beauty 'myth-buster', she has received numerous awards for her work as an educator, journalist, skin researcher, and product developer. During her 55-year career, she has been a leader in the growth of skincare from a luxury reserved for the rich to a must for anyone with skin. She has developed over 1400 cosmetic products sold nationally and internationally in the spa, medical, on-air, direct, and natural product channels, published over 600 articles in consumer and professional journals, and taught the ground-breaking cosmetic science program at UCLA to thousands of industry professionals worldwide for thirty-eight years. Retiring in 2015, this passionate truth-teller has come back to address the exorbitant amount of misinformation plaguing the cosmetic sector, online and off, professionals and consumers, in her podcast, *Facially Conscious*. Along with a board-certified dermatologist, master esthetician, a highly educated consumer, and their guests from all walks of the cosmetic and dermatology fields, you'll go on an eye-opening behind-the-scenes tour into all things skin.

Rebecca is also the founder and senior expert at the Facebook community, *Skin Care Ingredient Experts* - an open platform with almost 1300 members where estheticians, cosmetic chemists, beauty mavens, marketers and editors, and other industry professionals interact and share data about skin, ingredients, new technologies, regulations, myths, and hot topics in the media. In 2015, she founded the Facebook community, *Trends in Cosmetic Sciences* – an open platform with almost 900 members in the skin care development arena who want to learn more about epigenetics, microbiomics, proteomics, synthetic biology, green chemistry, and other science trends effecting skin care research and development.

WEBSITE:

<https://www.podpage.com/facially-conscious>

CONSULTING

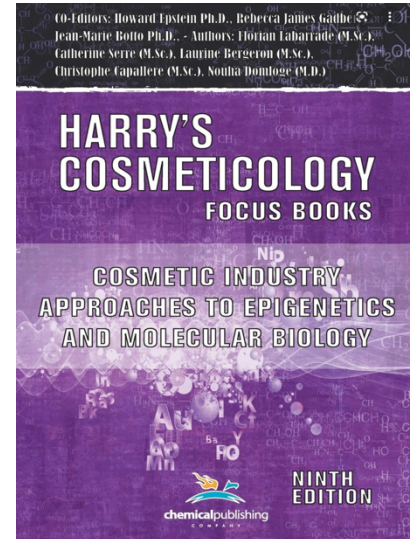

Before rejoining YG Laboratories in 1997, Rebecca was a marketing, product development and training consultant for U.S., Canadian and Australian beauty brands from 1986 to 1997. Her clients included *3M Wound Care*, *Guinot*, *Advanced Polymer Systems*, *Allergan Pharmaceuticals*, *Alfred Sung Fragrances*, *General Nutrition Centers (GNC)*, *Bioelements*, *Sothys*, *Garden Botanika*, *Jason Natural Products*, *CamoCare*, *Blackmore's of Australia* and *John Paul Mitchell Systems*.

JOURNALISM

An award-winning journalist whose focus was cell and skin biology, skin care, sunscreens, skin care ingredients and trends, epigenetics, and the skin's microbiome, Rebecca has published more than 600 articles in trade and consumer publications worldwide since 1979. Industry publications include *Global Cosmetic Industry (GCI)*, *Drug & Cosmetic Industry*, *Skin, Inc.* (Contributing editor; column: *Ingredient Myths Busted*), *American Salon* (Contributing editor; Award: Best Business Article, 1987; Award: Best SkinCareArticle, 1988), *Beauty Store News*, *Modern Salon*, *Dermscope* (Column: *Ask the Ingredient Expert*), *Les Nouvelles Esthétiques* (Contributing editor), *Health Food Business* (Contributing editor), and *Natural Foods Merchandiser*. Consumer publications include *New Beauty (Board of Advisors)*, *Glamour*, *Longevity* (Contributing editor), *Self*, *Playgirl* (Beauty editor), *Cosmopolitan*, "E" *The Environment*, *East/West Journal*, *Yoga Journal*, *Energy Times*, *Bestway's* (Beauty editor), *Let's Live* (Beauty editor), *Delicious*, *New Woman*, *The Wall Street Journal*, and *The New York Times*. Her insights into cosmetic ingredients have been quoted by such publications as *Shape*, *Redbook*, *NewBeauty*, *Essence*, *Allure*, *Lady's Home Journal*, *New Woman*, *American Health*, *Health*, *Good Housekeeping*, *Dermatology Times*, *Cosmetic Dermatology*, *Soap & Cosmetics*, *Drug & Cosmetic Industry*, *Happi* (household and personal products industry), *Global Cosmetic Industry*, *American Spa*, *Modern Salon*, *American Salon*, *Salon Today*, *Day Spa*, *Los Angeles Magazine*, *Cooking Light*, *Walking*, *Coastal Living*, *The Los Angeles Times*, *The New York Times*, *The Wall Street Journal* and *Glamour*. In 2015, her chapter, *Epigenetics of Skin Aging*, was published in the 9th edition of *Harry's Cosmeticology* and *Cosmetic Approaches to Epigenetics and Molecular Biology*. The chapter is the first of its kind to be published in the field of cosmetic science.

UCLA EXTENSION

Rebecca was the senior instructor and program director of the industry-acclaimed *Cosmetic Sciences* program at *UCLA Extension* in Los Angeles from 1986 to 2017. Beginning with a single course for local cosmetic chemists, she has grown the program into a series of multi-disciplinary courses covering product development; cell, skin, and hair biology; cosmetic and drug regulations; claims substantiation; basic and performance ingredients for skin and hair care and sunscreen development; green chemistry for cosmetic sciences and other relevant topics.

Amy Gardner LE Director of Education LightStim

Amy Gardner, LE has been LightStim's Director of Education since 2008 where she has applied her 30 + years of experience in Corporate Education and Program Development to crafting the content for LightStim's instructional platforms.

Over the past thirteen years Amy has educated thousands of esthetics, medical and wellness professionals on photobiomodulation (low level light therapy) both domestically and internationally. As a sought-after speaker and subject matter expert, Amy has contributed to numerous industry publications, texts, and training materials throughout her career. Having a passionate interest in proactive and holistic health and wellbeing, Amy is driven by a desire to leverage integrative strategies, treatments, and technologies for improved quality of life everywhere for everyone.

Website: <https://lightstim.com>

LightStim ProPanels -The free standing ProPanel promotes higher skin function for a smooth and radiant appearance. Use as an add-on or to elevate the results of other services. This soothing treatment keeps clients coming back to restore both their inner and outer glow. The LightStim ProPanel utilizes the power of LightStim MultiWave® Patented Technology to deliver multiple wavelengths of therapeutic light simultaneously and continuously throughout treatment for unsurpassed efficacy and results.

- Available in 3 models: Anti-Aging, Acne, and Pain – all with a 2-year warranty -FDA Cleared
- Manufactured in the US by LightStim
- 1,400 custom designed LEDs on 4 hinged panels that can be contoured easily and precisely to the area of treatment
- Ensures the closest possible proximity to the skin without compromising client comfort and overall experience
- Touchless treatment
- Widely articulating arm makes it easy to reach any treatment area with ease, while solid base and wheel locks provide the stability you need in the treatment room
- Can be wall mounted to conserve space -Fully programable timer on easily accessed control panel
- No ongoing consumables required -Built to last – LightStim has stood the test of time for over 20 years
- LightStim remains the preference of countless industry experts, authors, and educators
- Online LED Certification Class included with every device purchase to help ensure your success

LightStim LED Bed -This soothing, natural full-body treatment helps promote overall wellness and peak physiological function. LightStim LED Bed relieves pain, relaxes sore muscles, and increases blood circulation to oxygenate tissues and support restorative processes. Utilizing the power of LightStim MultiWave® Patented Technology, the LightStim LED Bed is the first and only LED Bed to receive FDA Clearance. The Bed's efficacy can be attributed to its innovative and patented design features as well as its profoundly relaxing effects. Clients look forward to repeating this soothing experience regularly – and frequency of treatment is key to achieving long term benefits.

- FDA Cleared -Manufactured in the US by LightStim - Composed of 18,240 LEDs
- Unique one-sided design ensures closest proximity of the skin to the light source for the best possible results
- 30 separate modules can be removed independently for ease of repair
- Sophisticated sensors monitor and adjust body temperature on a millisecond-by-millisecond basis
- State of the art customized acrylic eliminates distortion and facilitates better light absorption
- Fully programable timer on easily accessed control panel
- No ongoing consumables required -Built to last – LightStim has stood the test of time for over 20 years
- LightStim remains the preference of countless industry experts, authors, and educators
- Online LED Certification Class as well as live personal education session included with every Bed purchase
- 2-year warranty

LightStim Professional and Retail (Hand-Held) Lights -These affordable devices utilize the same technology as LightStim ProPanels and are available in both professional use and home care models. Grow your retail business with technology clients love to pair with home care regimens for even better results.

- Available in 3 models: Anti-Aging, Acne, and Pain – all with a 5-year warranty
- FDA Cleared
- Manufactured in the US by LightStim
- 72 LEDs (36 – LightStim for Acne retail light) provide excellent coverage for shorter overall treatment time
- Ergonomically designed handles
- Can use 2 Lights (1 in each hand) to shorten professional treatment time
- No ongoing consumables required
- Retail Lights are packaged in a point-of-purchase box ideal for display
- Drop shipping available (retail)
- Built to last – LightStim has stood the test of time for over 20 years
- LightStim remains the preference of countless industry experts, authors, and educators
- Online LED Certification Class included with every device purchase to help ensure your success

LightStim Elipsa - Promote healthy, radiant skin that glows from within with this versatile hands-free device. Lightweight and designed to go where you go, Elipsa can be used as a stand-alone treatment, or in conjunction with other products and services to elevate the results of everything you do at a price you can afford.

- Both wrinkle & acne modes in one device
- 2-year warranty
- FDA Cleared
- Manufactured in the US by LightStim
- 868 custom designed LEDs on a curved, adjustable, and durable hard-shell design
- Ensures the closest proximity to the skin without compromising client comfort and overall experience
- Touchless treatment
- No ongoing consumables required
- Built to last
- Online LED Certification Class included with every device purchase to help ensure your success

Pia Kynoch ND, BAsc

Beauty Therapist

Pia, a trauma informed educator, Naturopath, holistic skin specialist, globally recognized speaker and multi-modality wellness practitioner with over 25 years industry experience, is renowned for offering exciting and exceptional evidence based education related to human body interconnectedness, with a special interest in the nervous, immune, integumentary, digestive and hormonal systems.

She is passionate about helping practitioners, coaches and therapists' shift and transform the way they think, live and treat, and does that by blending her decades of clinical experience and very wide holistic education knowledge base to deliver presentations designed to bring many 'aha' moments. Pia has trained under some of the formats educators and skin therapists in the esthetic industry. She is a passionate practitioner and an inspiring clinic leader at the Verve Skin Beauty & Wellness Center in Kew, Australia.

Pia was awarded the prestigious *Beauty Therapist of the Year* award from Dermaviduals in both New Zealand and Australia in 2018. She combines high science with holistic principles for an integral approach to skin health and uses the principles of corneotherapy to improve to improve the skin's look, feel and function. Pia holds a Bachelor of Applied Science degree in naturopathy, graduating from the Southern School of Natural Therapies in Melbourne, Australia.

Keynote speaker for:

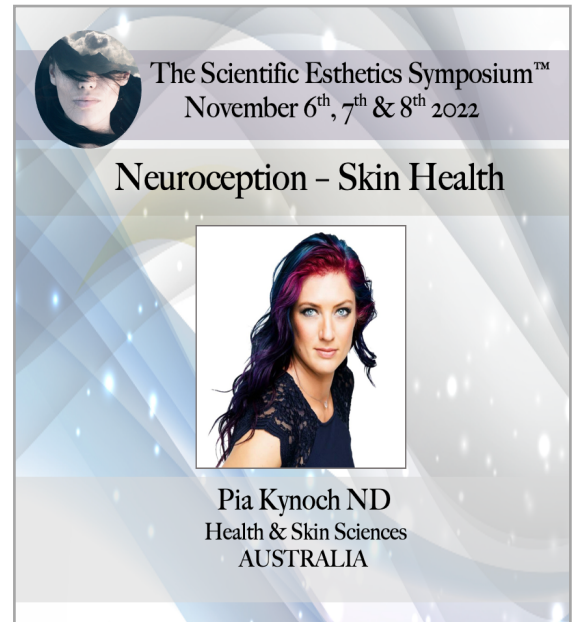

- Dermaviduals Australia
- Sothys Australia
- DMK Australia
- Vital Plus Australia
- The Association of Holistic Skin Care Practitioners
- Beaute Industrie Live Learnings

Podcast & FB Interviews:

- Beaute Industrie
- Fiona Tuck
- Beauty Therapist of Australia – Industry Leaders
- Vanessa Chauvet
- The Australian Dermal and Laser Institute

Recent Awards:

- 2020 HOW Winner Wellness Specialist/Practitioner of the Year
- 2020 HOW Finalist Wellness Trainer – Oceania
- 2019 Dermaviduals Corneotherapist of the Year Runner Up
- 2018 Dermaviduals Beauty Therapist of the Year award Australia and New Zealand
- 2018 Dermaviduals Consumers Choice Australia and New Zealand Award
- Member of NHAA, APAN, ASDC and Panelist on global advisory board for the AHSCP.

Neuroception - Skin Health

Pia Kynoch ND
Health & Skin Sciences
AUSTRALIA

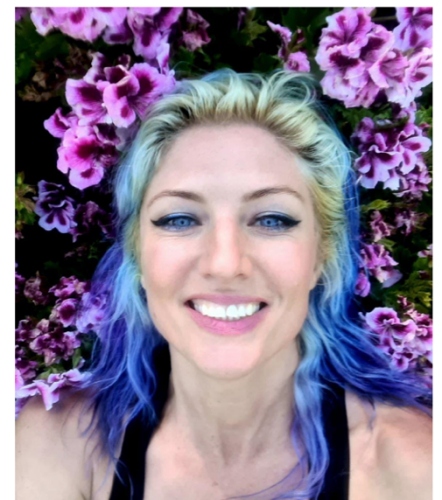

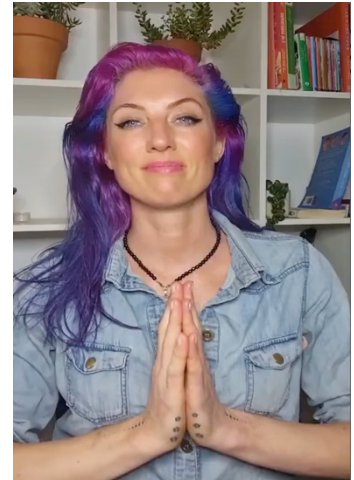

PIA KYNOCH IS AN AWARD-WINNING TRAUMA-INFORMED NATUROPATH, SPEAKER AND EDUCATOR WITH OVER 25 YEARS OF EXPERIENCE IN HOLISTIC WELLBEING. SHE HAS A WEALTH OF KNOWLEDGE AND IS AN EXPERT IN THE MIND-BODY CONNECTION. PIA IS BASED IN MELBOURNE, AUSTRALIA.

Pia's treatment and education ethos is "from skin to within". Our skin has a paramount role in our health and wellbeing, and our self-perception — it is the tissue that we see every time we look at ourselves, it us our barrier and boundary between our outside world and inside world, and it holds all of us 'in' - including holding all fears and worries, and our hopes and dreams. Pia shares her education to inspire you to be the practitioner that can fully see, feel, hear, and know your client. You have the power to radically change the world, one person at a time!

Pia has collated some very powerful and in-depth information in all her courses and offerings, as she recognizes that there is so much to consider when you start to help guide someone back into their innate wholeness and healthiness. Releasing dis-ease and finding balance and harmony means finding root cause - and for this you need to think holistically.

"I am so passionate about sharing empowering education that changes the way people think, live, and treat! It thrills me to share perspective expanding education to leaders, students and staff in the skincare, anti-ageing, medical, health and wellness fields. I am renowned for being able to present complex concepts through easy to understand, accessible and relevant information that always gives a deeper holistic understanding of the body and its systems, and how these link to treating your clients skin condition."

Come and join me for this value-packed: **Chakra Exploration Course** - Energy truly is everything... Energy is the fabric that creates our reality... The more you know about energy, and the energy behind emotions, beliefs, and habits, the more you can live your best, most authentically expressed life. Our chakras are an energetic doorway into self-connection, an expanded mindset, personal growth, and universal possibilities.

DR. HANS LAUTENSCHLÄGER PHD

Chief scientist, KOKO Kosmetikvertrieb GmbH & Co.KG - Leichlingen, Germany

Dr. Lautenschläger is an internationally respected organic chemist and pharmacologist with vast experience in the development of formulations and products designed for the skin. Research & Development under his guidance for a number of German organizations has produced novel pharmaceutical actives for lipid metabolism disorders, inflammation and heart, blood, and circulation diseases. Dr Lautenschläger has published more than 200 industry publications and patents for his product range- Dermaividuals.

During the 1980's, he was head of the Application Engineering Department at Nattermann Phospholipid, a company specializing in the development of pharmaceuticals and skin care products that contain Phosphatidylcholine. His interest in phospholipids and their application in treating skin barrier disorders have put him in the forefront of innovative design of skin care products primarily employed in applied Corneotherapy. Dr Lautenschläger is the vice chair of the prestigious International Association of Applied Corneotherapy and is recognized within the international skin care community for his contributions to applied

The Scientific Esthetics Symposium™
November 6th, 7th & 8th 2022

SPECIAL GUEST LECTURE

Dr. Hans Lautenschlager PhD
Chief Scientist - Pharmacist
KOKO GmbH Laboratories
GERMANY

Website: [https:// dermaividuals.de](https://dermaividuals.de)

KOKO Kosmetikvertrieb GmbH & Co.KG - Leichlingen, Germany was founded in 1994

Dr. Hans Lautenschläger studied chemistry and physics at the Free University of Berlin. From 1977 to 1987, Dr. Lautenschläger worked as department manager in the R&D division of Nattermann & Cie. GmbH in Cologne and developed new pharmaceutical actives for lipid metabolism disorders, inflammation and heart, blood, and circulation diseases. From 1987 to 1990, Dr. Lautenschläger changed over to the development and application department for phospholipids of the Nattermann Phospholipid GmbH. From 1990 to 1998, Dr. Lautenschläger became general manager of the Rhenus Wilhelm Reiners GmbH & Co. KG in Mönchengladbach; in this period innovative metalworking fluids and skin protection products have been created. KOKO Kosmetikvertrieb GmbH & Co. KG develops, produces, and distributes the skin care products dermaiduals® via dermatological practices with associated cosmetic departments and via authorized pharmacies.

Memberships of KOKO Kosmetikvertrieb GmbH & Co. KG:

- Industrieverband Körperpflege- und Waschmittel e.V. - IKW (German Cosmetic, Toiletry, Perfumery and Detergent Association)
- Sponsor of the Gesellschaft für Dermopharmazie e.V. - GD (Society of Dermopharmacy)
- Sponsor of the International Association for Applied Corneotherapy (I.A.C.).

KOKO pursues an open policy based on mutual confidence. Any suggestions and ideas resulting from practical use are very welcome in order to further develop our dermaiduals® product system.

Dermaiduals® products are protected by patents. Background information and latest scientific results are published regularly in neutral form. Essential objective is a close cooperation between beauty institutes and dermatologists.

Dr Hans Lautenschläger is member of

- International Association for Applied Corneotherapy (I.A.C.)
- Arbeitsgemeinschaft für ästhetische Dermatologie und Kosmetologie e.V. - ADK (Syndicate for Esthetic Dermatology and Cosmetology)
- Deutsche Gesellschaft für wissenschaftliche und angewandte Kosmetik e.V. - DGK (German Association for Scientific and Applied Cosmetics)
- Gesellschaft für Dermopharmazie e.V. - GD (Society of Dermopharmacy)
- Gesellschaft Deutscher Chemiker e.V. - GdCH (German Chemical Society).

Dr Hans Lautenschläger has numerous patents and a volume library of abstracts and articles.
