HOLIDAY SEASON

Hello from Texas

Were you aware that Texas has close to 2000 independent food companies?

Many of these have been created by chefs with recipes going as far back as five generations, truly giving homage to their Texas ancestry. Others are based on innovations by modern southwestern chefs and foodies.

We are building our company based on fabulous quality foods such as those in our catalog, essentially all are from Texas, hand selected and in some cases developed specifically for our customers to savor the best in and from Texas.

If you are discerning about the food you enjoy and take pride in what you want to serve to your family and friends, then you have come to the right place.

We tasted and found products from the Rio Grande, through the Hill Country to the Red River, from the Panhandle to East Texas; all are brought to you for your sheer culinary pleasure. Our offerings range from honey glazed hams with honey infused to the bone, fresh nuts from all over the world dry roasted in Austin, herb and garlic smoked chickens, jalapeno smoked turkeys, extra virgin cold pressed olive oil from the hill country and many many more culinary delights await you.

Whether you are a corporation, professional firm or a small business owner you want to give gifts that define you and your clientele as discerning and sophisticated. We have the perfect gift combinations for you.

Our catalog has gifts for all price ranges and offers you the opportunity to help you show your appreciation to your partners, customers, clients and employees. Check our website soon for larger gift packages.

If there is something special you want from Texas, but do not see it already packaged for you here – Call us and we will do our best to serve you with the best from Texas.

We look forward to serving you.

Lawrence J Briggs

We understand that you want to give your sophisticated clients upscale gifts to show them your appreciation.

At the Republic of Texas Food Company our corporate gifts are handpicked to give you the assurance that your gifts convey just how much you value your clients.

Texas Olive Oil & Italian Balsamic Vinegars

Create a custom gift of Olive Oils and Balsamic Vinegars for the discerning and sophisticated entertainer.

The Olives are organically grown in Dripping Springs, TX where the limestone rich area is almost identical to central Italy. The Balsamic Vinegars are carefully manufactured, and aged 6-10 years, then imported from Italy delivering only the highest quality of taste.

TEXAS EXTRA VIRGIN OLIVE OILS

Extra Virgin means that once the olives are picked, they are pressed within 24 hours, before the acid levels can build up. The temperature is kept low throughout the process of extracting the oil – this is what’s known as “cold pressed.” High temperatures extract more oil, but many of the subtle flavors are destroyed and the taste is impaired. The oil you receive is monitored, so the press never goes above 86 degrees Fahrenheit. This means your oil tastes as fresh as the orchard it came from.
