Why choose Firetainment?

Because we make quality products with you and your family in mind, right here on American soil.

Hover your smartphone’s camera over the QR Code to see how we manufacture each of Firetainment’s products.

“Firetainment products focus on elements that promote family connections, design functionality, and product customization, which is what sets us apart from the competition.”

Shawn Clark,
Founder & CEO

AS SEEN ON:

Firetainment product's focus on promoting family connections, design & functionality, as well as personal customization. This is what distinguishes our products from the competition.

Our patented "Universal Cooking Package" can be added to any of our fire pit table designs to allow for the most dynamic fire pit table on the market today.

Cooking meals on your fire pit table at home brings your family back around the dinner table, promotes quality bonding time over meals, and allows for more interactive time together away from today's different electronic devices.

Whether you're entertaining family & friends or just relaxing after a long day at work, the time spent around your one-of-a-kind Firetainment fire pit table will create some of the most memorable moments you can have within your outdoor living area. Thank you for your interest in our products.

Continue on to see why we're the number one fire pit table manufacturer in America!

Gold

Platinum

OUR TABLETOPS

Full Granite Tabletops

Our standard granite table tops are offered in both 2cm and 3cm thicknesses on most table selections.

Upgraded granite options are only available in 3cm

2cm Granite = 3/4" Thick (+/- 1/16")

3cm Granite = 1-1/4" Thick (+/- 1/16")

Each one of our beautiful granite tabletops is an elegant stone that is a product of nature. Therefore, variations in color, pattern, texture and veining is expected and may vary from the sample shown to the customer. These differences and variations in stone should be considered as the beauty of natural stone instead of flaws.

Pretreatment & Resealing of the Granite Top:

All Firetainment Inc. stone tabletops are pre-treated with an impregnating sealer that penetrates deep into the porous surface providing a long lasting barrier that locks out oils, water, stains and dirt. Spills should be wiped up quickly to avoid any staining on the surface. Sealing of the granite is a simple "wipe on, wipe off" process, and stone sealers are readily available at most hardware, tile and stone countertop stores. We recommend using the "GQ 314P Premium Impregnator" available from www.GranQuartz.com should a store not be nearby.

** Each stone cover may be cut from a separate piece of stone, therefore color, tone, & texture may differ from the tabletop itself.*

PreCast Concrete Tabletops are no longer an available option.

OUR BASE ENCLOSURES

The Firetainment base enclosures are made of American manufactured corrosion resistant 5052-H32 marine grade aluminum alloy and fabricated using only the most advanced manufacturing techniques available today.

- Each base enclosure is equipped with stainless steel hardware, SS adjustable leveling feet and arrives pre-assembled.
- Our powder coat process utilizes an eco-friendly, state-of-the-art six stage pretreatment process to ensure superior paint adhesion and exceptional corrosion protection against the finish.
- The tapered design of the base is stylish and conceals the fuel source and all of the stainless steel gas connections.
- The magnetic access door can be removed by simply pulling the handle to release the magnet, revealing the inside storage area for your standard propane tank or access to your gas supply piping.

NEWLY
DESIGNED
BASED ON
CUSTOMER
FEEDBACK

Available in two (2) different styles, two (2) different heights and four (4) different powder coat finishes:

Base Types

Mini Base Enclosure - Comes standard with any table 36" or smaller and includes an LP tank foot.

Standard Base Enclosure - Comes standard with any table 42" or larger and includes a SS LP tank drawer slide (Shown below)

Base Heights

21" chat height - Ideal for low profile seating such as a couch or loveseat.

Black Finish

Bronze Finish

White Finish

Grey Finish

Mini Base
(Tank Foot Included)

Standard Base
(SS Tank Drawer Included)

Standard Rectangle Base
(SS Tank Drawer Included)

OUR BURNER ASSEMBLIES

Burner Component Specifications:

- Our burner system's **stainless steel components** are very durable, create protection against accidental puncturing of the gas lines, prevents damage from any outdoor elements, and protects against pests that may chew through the gas lines.
- Each of the included gas connection kits are made of **stainless steel hoses** vs. standard rubber connections.
- The **manual valve assembly** is constructed of **brass fittings** which are strong factors in preventing rust or corrosion. Positioned next to the door panel for easy lighting.
- The burner's ignition system is "**match lit**" ensuring a very reliable and easy to use fire feature that will work EVERY time you use it.
- The **control knob can adjust the burner's flame height** from one to twenty inches (1"-20"+) giving a wide range of climates to use the appliance in.
- Our burner pan's are made of **304 stainless steel** and have a **high heat ceramic coating** that reduces heat transfer to the table. This coating also enables the ability for 'touching-up' the burner pan should it get scratched or scuffed in any way.
- The **12" 304 stainless steel burner & 18" Linear burner** help optimize the flame ensuring a consistent symmetrical flame output. This creates an unmatched focal point at the center of each model fire pit table.
- Our burner system operates with a standard propane tank or NG system at a very efficient **45,000 BTU's**. (*Std LP Tank = 15+ hours of burn time*) * *Additional BTU's upon request; May effect warranty* *
- A **natural gas conversion kit** can be added to any fire pit table order at no additional cost at the time of the order being placed. If not be ordered at the time of the table purchase, we can ship one at minimal cost in the future.

OPTIONAL ACCESSORIES

Matching Aluminum Burner Covers

Add one of our matching aluminum burner covers to enhance your fire pit table's functionality and design. When you're not using your Firetainment table for the ambiance of the fire or the utility associated with our patented universal cooking package, this add-on piece allows for the use of the complete tabletop surface for a multitude of different functions.

Each "Matching Aluminum Burner Cover" comes in the shape of your fire pit table and matches the finish of your base enclosure.

OPTIONAL ACCESSORIES

Tempered Glass Wind Guards

Each of our wind guards are made of 3/16" thick tempered glass panels to handle the high heat produced by the fire pit table and stand 6" tall off the table's surface. Our tempered glass wind guards are offered in round, rectangle, and square to match the shape of your fire pit table and each includes all necessary hardware.

Each wind guard comes with four (4) top corner brackets and four (4) bottom corner brackets with rubber feet that ensure your tabletop does not get scratched when in contact with wind guard. Wind guards come unassembled.

Scan the QR code to see our wind guard assembly instructions.

Full Fire Table Covers

- Three-year limited warranty
- Gardelle™ Fabric System features an elegant fabric top with a protective water repellent and resistant laminated backing and a protective dark splash guard skirt
- Click-close straps snap at front to secure cover on the windiest days
- Elastic hem cord for a tight and custom-like fit
- Air vents reduce inside condensation and wind lofting
- Padded handles for easy fitting and removal

OPTIONAL ACCESSORIES

The Firetainment Inc.
Fire pit table
COOK BOOK!

Our Patented - Universal Cooking Packages

Our optional *patented* “Universal Cooking Package”, *which can be added to any our fire pit table designs*, allows for the most dynamic fire pit table on the market today.

Cooking meals on your fire pit table at home brings your family back around the dinner table, promotes quality bonding time over meals, and allows for more interactive time together away from today’s many different electronic devices.

Our patented “Universal Cooking Package” includes the following components: to match your fire pit table shape.

Package Includes:

- (1) Universal Cooking Mount
- (1) 14" Cast Iron Griddle
- (2) Himalayan Salt Cooking Blocks
- (1) Surface Mount Thermometer
- (2) Cooking Mitts

Scan the QR Codes to see our fire pit table’s cooking in action!

PLEASE NOTE: Tempered Glass Wind Guards are no longer included in the Universal Cooking Package

NEW ACCESSORY TABLES

Above: 3cm Santa Cecilia granite (rockface edge) tabletop, a standard 24" bronze casual dine height base enclosure, and copper 1/4" reflective fire glass.

Above: 3cm Santa Cecilia granite (rockface edge) tabletop, a standard 24" bronze casual dine height base enclosure, and black 1/4" reflective fire glass.

Product Specifications & Design Options

Shape	Round
Width	54"
Depth	54"
Heights	21" or 24"
Weight	327 pounds
Made in the USA	Yes
Assembly Required	Pre-assembled
Warranty	Limited
Location	Outdoor
Seating for	4 or 10 guests
Tabletop Materials	3cm Granite
Tabletop Upgrades	3cm Granite Upgrade Colors
Tabletop Options	(8) - Granite Colors
Burner Materials	Stainless Steel & Brass Fittings
Burner Fillers	(10) - 1/4" Reflective Fire Glass Colors
Base Enclosure Styles	Standard Base Enclosure
Base Enclosure Materials	Marine-grade Aluminum Alloy
Base Enclosure Finishes	Bronze, Black, Grey, or White Powder Coat
Fuel Type	Propane or Natural Gas
Ignition Type	Match-Lit
BTU Rating	45,000 btu's
Style	Traditional

TABLETOP COLOR OPTIONS

POWDER COAT OPTIONS

FIRE GLASS COLOR OPTIONS

OPTIONAL ACCESSORIES

Matching Aluminum Burner Lid

Tempered Glass Wind Guard

Full Fire Table Cover

Round Universal Cooking Package

Includes:

- (1) Cast Iron Griddle
- (2) Himalayan Salt Blocks
- (2) Cooking Mitts
- (1) Surface Mount Temperature Gauge
- * Shown with wind guard
- (Not Included in Cooking Package)

54" Santorini

Above: 3cm Tan brown granite (Rockface edge) tabletop, a standard 24" bronze casual dine height base enclosure, and black 1/4" reflective fire glass.

Above: 3cm Azul Platino granite (polished edge) tabletop, a standard 24" bronze casual dine height base enclosure, and copper 1/4" reflective fire glass.

Product Specifications & Design Options

Shape	Square
Width	48"
Depth	48"
Heights	21" or 24"
Weight	272 pounds

FREIGHT & SHIPMENTS

Each Firetainment order is carefully shipped in our uniquely designed packaging. Each tabletop is shipped in a custom fabricated wood crate with the table base and all other pre-assembled components within a single box. We have the lowest breakage and/or damage to outbound shipments due to the extreme measures we take to ensure your order arrives as intended.

Custom Fabricated Crate Information:

Each tabletop is shipped in a custom fabricated wood crate which differs in size depending on how many tables were in the order (1 to 6 tops per crate).

Each table top sits on 1-1/2" closed cell foam inside the crate to ensure shock protection.

Each top is secured with plywood to prevent any shifting of the table while in transport and protects the tabletop's finish.

Fire Pit Table Base Pallet Information:

The pre-assembled table base enclosure, the pre-assembled burner assembly, the fire glass, and any options chosen are palletized within a single box for easy storage/transport.

The pallet and box measurements are dependent on the products purchased. Should you need exact measurements please call our offices at 1.888.769.3444.

Each pallet is forklift-able from two sides for easy transporting.

FIRETAINMENT

Granite Care & Maintenance:

WARNING: UPON INITIAL START UP OF FIRE TABLE DO NOT SET FLAME ON HIGH.

HIGHT HEAT MAY CAUSE THE GRANITE TO CRACK DUE TO MOISTURE EXPANSION. PLEASE SET FLAME TO LOW AND ALLOW 30 TO 45 MINUTE FOR TABLE TO SLOWY WARM UP AND ELIMINATE ANY POSSBLE MOISTURE.

Please review and follow this 'Care & Maintenance' guide to avoid any damage to your fire table or denial of a warranty claim due to lack of consumer maintenance. Resealing of the tabletop is **required** seasonally (Twice per year) to prevent the absorption of moisture and staining. The resealing of the granite should be before and after the harsh winter months.

USE EXTREME CAUTION:

1. Do not operate the fire table in windy conditions or allow the flame to overheat the granite table top. This can cause cracking and therefore should be monitored closely. If the table top starts to overheat, slowly lower the flame until the table is off. This will allow the table top to evenly cool and minimize the chance of the table top cracking.
2. Be sure to clean the granite table top on a regular basis with warm water and a soft cloth to remove dirt and dust debris. If a more thorough cleaning is required, use non-ammonia based, non-abrasive cleaners, such as a water based ph neutral cleaner like "Simple Green".
3. All Firetainment Inc. stone tabletops are pre-treated with an impregnating sealer that penetrates deep into the porous surface providing a long lasting barrier that locks out oils, water, stains and dirt. Spills should be wiped up quickly to avoid any staining on the surface. Sealing of the granite is a simple "wipe on, wipe off" process, and stone sealers are readily available at most hardware, tile and stone countertop stores. We recommend using the "GQ 314P Premium Impregnator" available from www.GranQuartz.com should a store not be nearby.
4. While the fire tables can be placed in any outdoor space, it is important to **avoid prolonged exposure to direct sunlight and precipitation**. Both elements can cause damage over time to the table tops if the 'Care & Maintenance' is not followed on a routine basis.
5. **Never use abrasive cleansers** (like comet or borax powders) or abrasive tools (like steel wool pads) on any part of your Firetainment tables as these items can easily scratch the surface.

Should you have any questions or concerns in regards to the care or maintenance of your Firetainment fire table please call us at **1.888.769.3444** to speak with a member of our team or you can send an email to '**Contact@Firetainment.com**'. A team member will get back to you as soon as possible.

FIRETAINMENT WARRANTY

TABLE TOP WARRANTY:

Firetainment Inc. offers a (1) year warranty on table tops valid only with proper maintenance from the date of delivery. This limited warranty covers craftsmanship and the structural components of the table top. Firetainment Inc., at manufacturer's option, will repair or replace any table top found to be defective during this warranty period. This warranty is void should any of the following occur: 1. Incorrect installation by the retailer or customer; 2. Damage caused by accidents; 3. Misuse; or 4. Alterations made by anyone other than Firetainment Inc.

This warranty does not apply to the use of another manufacturer's table top, nor does it apply to the incorrect installation of the table top onto the base, by the retail store or end user. This warranty does not apply to any damage caused by shipping, accidents, fading, staining, natural weathering, misuse, alterations or repairs. Firetainment's stone table tops are extremely durable and once positioned onto the base only consequential (accidental) damage or misuse can occur. Misuse of the fire table includes, but is not limited to: sitting or standing on the table top; operating the fire table under windy conditions (Which can blow the flame across the stone top leading to potential cracking); or not following the 'Owner's Manual' as required.

Please Note: It's highly recommended to use a tempered glass wind guard under windy conditions; however, this is not a full proof deterrent. The owner is required to periodically check the stone near the burner pan to ensure it is not getting too hot. If you notice the stone table top getting too hot, slowly turn the flame down while gradually reducing the heat until ambient temperature is achieved.

COMPONENT PARTS WARRANTY:

Firetainment extends a five (5) year warranty on all burner components under normal use and proper maintenance. Firetainment, at factory option, will repair or replace any outdoor fire pit burner component found to be defective during this warranty period. Regular maintenance must be exercised as set forth in the owner's manual.

FIRE TABLE BASE ENCLOSURE WARRANTY:

The Firetainment fire table base enclosure comes with a twenty (20) year structural warranty when properly maintained while in residential use. Firetainment will, at factory option, repair or replace any base enclosure that has failed structurally during normal use and regular maintenance.

POWDER COAT FINISH WARRANTY:

Firetainment offers a five (5) year warranty against blistering or peeling of the base finish under normal use and proper maintenance. Firetainment will, at factory option, refinish or replace the base enclosure if the above occurs within a five (5) year period from the date of purchase. Occasional rust seepage from crevices and hidden unfinished surfaces inherent in some designs is considered a care and maintenance function and is not considered a finish failure. To retain the warranty regular care and maintenance is required. Extra care and maintenance is required in coastal areas due to high salinity in the atmosphere.

****All warranties apply to the original owner only and begin at the date of purchase. Proof of purchase is required with all claims.***
