

About Us:

With decades of relocation experience under our belts, PACS Elite offers more than just moving from point A to B. We've worked diligently to form a veteran owned and operated moving company unparalleled to any other service on the market. We have reliable equipment and the capability to efficiently & safely transport antiques, pianos, safes, hot tubs, exercise equipment, and so much more!

We have worked tirelessly to ensure our accreditation to the BBB. We also hold all necessary insurances and licenses to operate within New York State and across the United States, for long distance relocations.

We are bonded, insured and hold our word to a very high standard. We aim to change the stigma of the "mover" experience to a much more intimate, tailored and customized service. On top of that, we make sure to incorporate our white glove service to meet any budget.

YOU work hard for your belongings and personal items. Let us help you get them safely to your final destination!

Are *YOU* ready to move?

- ~ Ask your neighbors, friends and relatives about movers and brokers. Get at least 3 different estimates.
- ~ Determine if the broker is registered with the Federal Motor Carrier Safety Administration, and has a US & NYSDOT number. This will ensure they're legitimate movers.
- ~ Check with the Better Business Bureau to see if your broker is associated with them, too!
- ~ Find out about the movers responsibilities when you move, and if the broker has a dispute settlement program.
- ~ Make sure you have contact information for your moving company, and that you adequately insure your belongings.

Moving Day!

(Just a few friendly pointers!)

- ~ Make sure you have read the information on the bill of lading, confirm your end address, & mention all stops in between with your moving company.
- ~ Be present to answer questions and give direction. Stay until the move is finished to ensure all of your belongings are in place to your satisfaction.
- ~ Before the truck and crew leave (on both ends), take another walk through to make sure everything you need moved is on or off the truck. At the end address make sure all goods are delivered in the same condition as they were originally, and placed where you prefer them.

Customer Testimonials

"These guys are seriously top notch movers. Super professional, on the ball, responsive, and highly effective. They took so much of the stress out of moving. Highly recommend."
