

WE'VE REVOLUTIONIZED THE CORRIDOR LOCKER

Duralife Lockers are the first HDPE plastic locker that is fully fire-rated for your corridor application. Specially designed to meet the demands of the school environment, Duralife Lockers are built to withstand the harshest daily use. Scranton Products begins with the best material, American made HDPE that is engineered for strength and durability.

FEATURES & BENEFITS

- Fire Rated, NFPA 286 compliant
- Will never rust, corrode or delaminate
- Impact and dent resistant
- Scratch resistant
- Moisture impermeability
- Quiet close / hallway noise reduction
- Resisting: odors, mildew, mold and graffiti

AN INVESTMENT THAT PAYS FOR ITSELF

Engineered for value-oriented customers looking to save time and avoid hassles, Scranton Products' Duralife Locker™ line provides a competitively priced option with the lowest cost of ownership when compared to metal products.

Over a 20-year period, significant savings are realized by investing in Duralife Lockers™. Compare the true cost of a metal corridor locker over a 20-year period. The above chart takes into account the initial cost, maintenance, dent and scratch repair, painting cost, graffiti removal, and replacement of damaged and corroded parts to create a cost of ownership model representing these costs over time. Within two years, HDPE lockers are less expensive than metal. In 20 years, the accumulated savings are substantial.
