

Kwik-Wall
innovative

expertise

For more than 50 years, Kwik-Wall has been the recognized leader in the moveable wall industry for its expertise, quality products, innovations and warranty. From operable panels to moveable glass walls and accordion partitions, Kwik-Wall products perform at the highest level and have become favorites among the design and architectural community.

PHILOSOPHY

To produce and market moveable wall systems consistent with our uncompromising commitment to quality and excellence.

GREEN MANUFACTURING

We're committed to environmental stewardship through our green manufacturing techniques, reduction of end-of-project recycling rates and partnering with those vendors committed to the LEED program.

simplicity

Add functionality, privacy and acoustic aesthetics to your floor space with a Kwik-Wall moveable wall system, available in a variety of panel types, operational configurations and finishes.

With five different operational types, one is sure to meet your design and floor plan needs.

MODELS

2000 SERIES PANELS

Our most popular and affordable wall option now with a steel frame and acoustical substrate standard.

3000 SERIES PANELS

Providing a greater selection of sound control, the 3000 series is manufactured with steel frame and steel skins. Optional acoustic substrates are available.

elegance

Columbia University //
New York, NY
Model Variotec

The beauty and elegance of glass is now available in moveable walls. Kwik-Wall moveable Glass Wall systems can be found in banking centers, luxury suites and skyboxes, corporate meeting facilities, and many more installations. Patented Swiss-engineered Hawa[®] hardware-to-glass attachments use a cam lock for positive mechanical fastening giving you years of safe and worry free operation.

moveable glass walls
BY CLEAR-DIVISIONS

Kwik-Wall's Clear-Divisions offers many models to choose from, giving your space management project a variety of options.

>> Visit kwik-wall.com to find your local distributor or email us at kwinfo@kwik-wall.com for assistance in selecting the system that best fits your needs.

Sports Arena Skybox // Brookdale Community College // Lincroft, NJ
Model KVV-Tec

**VARIOTEC**

Individually operated panels allow for virtually any layout or stacking configurations, including continuously curved track.

APERTO

Designed for counter-top applications and lighter weight, Aperto is ideal for partitions and screens wherever individually operated panels can be used.

CENTERFOLD

A continuously hinged panel system with a center panel suspension point. Centerfold can be center stacked at either side of an opening or single stacked in a bi-stacking arrangement.

VARIOFOLD

Another continuously hinged panel system using the edge of the panel as a suspension point. Panels stack in perpendicular arrangement to the left or right of the center track.

KVV-TEC

Nearly limitless versatility and configurations are yours when choosing the KVV-Tec system. Individually operated panels coupled with the Kwik-Wall 425 multi-directional track and carrier system provide cost savings and uniquely designed space management options.

KWP-FOLD

This system combines the elegant horizontal top and bottom glass retainer with the hinged in pair Type 425 Track and carrier system. KWP-Fold also offers a center stack configuration and secure locking system.

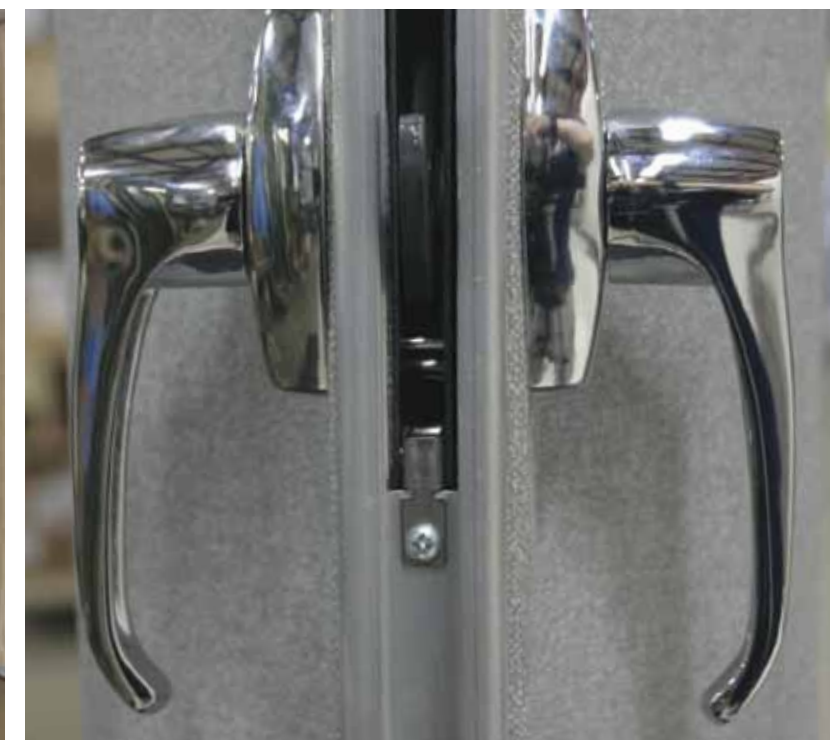

accordion partitions
BY CURTITION

The most economical solution for effective space management, Kwik-Wall accordion partitions come in several different STC ratings and straight or curved track. Your Kwik-Wall distributor can advise you on the most suitable type of operation for your project.

Roseland Elementary School //
Shawnee Mission, KS
Model VL-8 Accordion

functional

simple

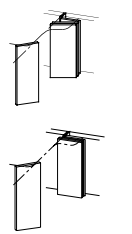

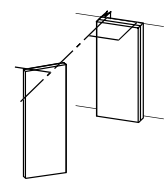

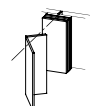

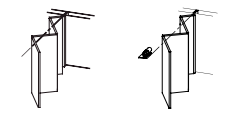

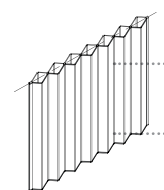

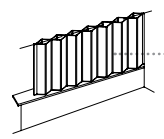

VL SERIES (SOUND)

Designed and manufactured to provide economical space division, the VL Series comes with a standard vinyl (or optional carpet) finish contoured to a welded steel frame.

MK SERIES (SIGHT)

The Accordion MK Series is recommended for areas where visual separation is the only priority.
