

SOLID PLASTIC HDP LOCKERS

General Partitions' solid plastic locker is constructed of a one-piece HDP body with no mechanical fasteners or hardware.

The locker frame is attached using full length dado joints secured by continuous plastic welds. The continuous spring-loaded latch mechanism provides a vertical lift that is designed to accept a padlock. The latch mechanism is attached to the length of the door, providing a continuous, secure latch.

Our Door Hinge is also continuous and contains no metallic knuckles or pins. Solid Plastic benches with pedestals available to match the lockers.

- ▶ Solidly Constructed of High Density Polymer
- ▶ Perfect for High Moisture Areas
- ▶ Will not Rust, Rot, Dent or Corrode
- ▶ 20 Year Limited Warranty

- ▶ We recycle all waste and scrap during our manufacturing process.
