## HEADRAIL BRACED

Headrail braced compartments are a great choice for virtually any facility. These units are especially recommended in heavy-use areas such as schools, institutions and industrial settings. The anti-grip top rail deters boisterous activity while ensuring a rigid and secure installation.

## CEILING HUNG

Ceiling hung units present a clean, contemporary appearance. They permit quick, easy floor maintenance, especially when combined with wall-hung fixtures. Ceiling hung partitions are recommended for modernization where a drop ceiling or open span construction can be used.

## FLOOR MOUNTED

The clean lines of floor mounted units lend an air of spaciousness to these installations. The absence of top structure makes them the ideal choice for high ceiling areas and allows a wide range of complimentary architectural and interior decoration possibilities.

## FLOOR TO CEILING

Floor to ceiling units are extremely strong and resistant to abuse as they are securely connected to the floor, ceiling and walls. This configuration is ideal for high abuse areas and installations that require extra durability.
