## Standard size tempered glass mirrors:

### B-2908 SERIES

### B-1658 SERIES

Tempered glass mirrors resist breakage and provide a measure of safety from broken glass, but differ in color and reflective quality from standard glass mirrors. Bobrick uses the highest quality tempered glass mirrors. Modest distortion or heat-generated markings are normal in the tempered glass mirror manufacturing process. Therefore, Bobrick will not accept returns of tempered glass mirrors with random distortion or markings.

## NOTE:

To specify mirrors, use Series Number desired followed by width and height in inches. Width dimension must be stated first following Series Number. Framed mirrors are manufactured to overall dimensions, as shown in all mirror tables on pages 24 and 25. Overall height of mirror/shelf models includes shelf. Framed mirrors must be installed with width and height dimensions as ordered. Mirror back and wall hanger cannot be installed side ways to reverse width and height dimensions. Provide minimum 3/4" clearance at top of mirror for mounting on wall hanger and 1" clearance on each side.
