CAUTION NOTE:

These seats are no stronger than the anchors and walls to which they are attached and therefore must be firmly secured in order to support the loads for which they are intended. Consult and comply with local building codes.

When properly installed and maintained, these seats have sufficient strength to support a single user to maximum static load specified. In the interests of safety and the protection of the end users, the seats should not be used to support weights exceeding the specified weight limits. Failure to abide by this warning may result in seats malfunctioning, potentially causing minor to moderate injury.

Bobrick folding shower seats are not spring-loaded. The seats do not return automatically to the upright position after use.
