# Lubricant Guide

<b>Lubricant Type:</b>	<b>Water Based - No glycerin / sugar</b>	<b>Flavored or sensations</b>	<b>Water-Silicone Hybrid</b>	<b>Silicone Based</b>	<b>Petroleum / Oil Based</b>
<b>Pros / Cons:</b>	Very safe and have multiple uses. Dries out quickly and needs to be reapplied frequently. Has a much lighter, wetter feel to it	Adds fun and different sensations, but many flavored & sensations type lubes are glycerin based, which can cause yeast infections.	Hybrid lubricants are a blend of water, clear or cream emulsifiers, and silicone. Hybrids are ideal to enhance natural lubrication, are longer lasting than water based formulas, and have a uniquely soft, velvety feel. They easily wash from skin and fabrics, are safe for most toys, and can also be used for light massage.	Great for water play. Have a more concentrated texture. Long lasting because silicone is not absorbed by the skin. Can damage certain materials and stain your sheets.	Never dries out and is the thickest of all lubes. Damages certain materials and can stain your sheets.

# Nirvana

Experience Nirvana with a new kind of external

stimulation! The velvety soft, flexible silicone and the flowing shape perfectly adapt to the vagina, clitoris and anus, and be lead to Nirvana with it's 7 functions plus warming and licking functions!

LUX897

Both waves have 7 powerful vibration modes - the larger wave also stands out because of its integrated vibro-tongue with 7 licking patterns, and the smaller wave has an additional warming function that goes up to an amazing 131° F! All the functions can be controlled separately, with or without the easy-to-use remote control up to 33 feet away. The remote control can be used to adjust mid-ride without having to move, or a partner can use the remote to control the sensations for exciting thrills. Nirvana is also waterproof, so it can be taken into the bath for a mind-blowing watery experience!

Not just for the ladies! Nirvana can also be enjoyed by men for stimulating the perineum, testicles and anus - every body can experience Nirvana! \$248.00

# IPX Waterproof Ratings

IPX stands for Ingress Protection and is also referred to as International Protection. It's a marking that indicates the level of protection against water, dust, etc. It also indicates whether the object is 'weather-resistant' or 'waterproof' — the greater the IPX rating, the greater the resistance.

IPX0 - No protection

IPX1 - Protects against dripping water

IPX2 - Protects against vertically dripping water

IPX3 - Protects against sprays up to 60°

IPX4 - Protects against splashing of water (equated to ordinary rain)

IPX5 - Protects against water jets

IPX6 - Protects against powerful water jets

IPX7 - Protects a product submerged in water up to 3.3 ft for 30 minutes

IPX8 - Protects a product continuously immersed in water over 3.3 ft

*Wine is the greatest invention. Next to the vibrator, of course. The best sex I ever had was with my vibrator.*

# Glass

Glass is incredible! It can be used warmed or cooled, washed simply with soap & water, is nonporous, and has no allergens. Beautifully hand crafted, these creations are meant to last a lifetime when cared for properly.

Glass toys are made from Borosilicate Glass. This is a very specific glass composition that is 8-10 times stronger than regular glass. Borosilicate is the only ISO certified, medical grade, pharmaceutical grade glass what should be used for adult toys, as it is body safe.

Most people don't consider temperature play with toys because few toys are made for it. Glass is perfect for temperature play. Want to know more about temperature play? Talk with your Pleasure Specialist! Bring it up as a group if you like - you're not the only one curious and your friend might be afraid to ask!
