

Managers -Women in trades awareness workshop

Purpose

Your taking on tradeswomen in your business for the first time or you have some scattered through your business and to help your managers and support staff to support them better, we know in the trades sector most of our leaders are men who have successfully mentored and trained other men for years, so they have the skills to create great tradespeople but what about the situations that are often unique to women?

What are they and how can some who hasn't experienced these situations before support them?

In this workshop we go through not only the issues that women can face but ways you can support them through!

The workshop

This two hour workshop can be run online or in person with a max of 10 people

Topics

- Sexism
- Imposter syndrome
- Feeling like you have the reputation of all women resting on your shoulders
- Societal standards and how they effect women in the workplace
- and more!

Costs

\$2500 per workshop

10 people max
