

# Enlighten Nimba Newsletter

Welcome to Vol. 1 of the Enlighten Nimba Newsletter. This newsletter will focus on The Gipo Vocational Technical Institute which continues to grow in supporting the people of Nimba County, Liberia and to make significant changes. These Newsletters will keep you informed to many of these changes

## Mission Update

Work continues on the dormitory. Completion is expected before the start of the new school year.

We are initiating a partnership with a global group who can supply nutritious meals to the school.

The school may connect with the power grid this year.

## What's Needed

- Money is still needed to purchase materials for the dormitory.
- Once completed, donations will be directed to supplement food purchases and developing the solar power which will offer greater use for classrooms and dormitory.
- There is a need for quality teachers. Funding programs are being developed that will help support educators to teach at GVTI.

Your support gets us closer to meeting these goals. Gipo Vocational Technical Institute is making a difference with the people in Nimba County.

It is the support from benefactors like you that will accomplish these goals, and if you can help, please contribute to the address below or through our website.

**Thank you for your generosity.**
