

Annual Report 2025

SNIP Collier's Mission it to end the suffering and neglect of dogs and cats in our community due to the pet overpopulation crisis through affordable spay and neuter, vaccines, preventative care, and general animal welfare, and through public awareness, education, and outreach.

Dear Supporters,

As we reflect on 2025, one thing is clear: this year was defined by momentum, compassion, and meaningful progress—all made possible by the incredible support of our donors, volunteers, staff, partners, and community.

Thanks to your generosity, SNIP Collier continued expanding access to affordable veterinary care while advancing lifesaving programs throughout Collier County. Together, we celebrated exciting milestones, strengthened partnerships, and laid the foundation for even greater impact in the years ahead.

Looking toward 2026, we are energized by the anticipated completion of the first phase of our Immokalee campus project: the opening of a second low-cost veterinary clinic; and with the opening, the opportunity to serve even more pets and families. None of this would be possible without your belief in our mission.

Thank you for standing beside us as we continue creating healthier lives for animals and the people who love them.

Sincerely,

A handwritten signature in dark ink that reads 'Tom Kepp'.

Tom Kepp

Founder and Executive Director

SNIP Collier

Get To Know Us

SNIP Collier is a grassroots, boots-on-the-ground nonprofit working to end the suffering and neglect of dogs and cats in our community caused by the pet overpopulation crisis. Since 2013, our mission has been carried out through accessible spay/neuter services, vaccinations, preventative care, daily rescue efforts, education and community outreach.

What began as one man's mission—founded by Tom Kepp and powered by volunteers—has grown into a critical resource for Collier County. In 2015 we became a registered 501(c)(3) nonprofit. In 2021, we opened our first low-cost clinic on Davis Blvd in Naples, offering affordable surgeries, exams, microchipping, vaccinations, and medications. In 2023, we expanded with a fully equipped mobile veterinary unit to bring services directly to underserved and rural communities. This May, we broke ground on a new full-service, low-cost veterinary clinic in Immokalee—a much-needed facility for an area where pets and the community often lack access to care. This expansion will deepen our impact and bring low cost services where they're needed most. We've made tremendous strides since 2013, thanks to the generous support of the Collier County community. But there's still important work to do.

This year, as we celebrate our 10th anniversary as a 501(c)(3), we're proud to have:

- Spayed/neutered over **20,000** dogs and cats
- Rescued more than **1,750** animals, with **200+ rescues** in 2025 alone
- Provided critical financial and medical support to families and animals in need through our **Helping Paws Medical Fund, TNR Program, and Foster & Adoption Program**

Our Programs

Helping Paws Medical Fund

The Helping Paws Medical Fund provides financial assistance for urgent veterinary care to pets whose families are facing temporary financial hardship, helping keep beloved companions with the people who love them. The fund also supports the medical treatment, rehabilitation, vaccinations, spay/neuter surgeries, and foster care of rescued, neglected, and surrendered animals, ensuring they receive the care they need before being placed in loving forever homes. Through the generosity of our donors, the Helping Paws Medical Fund gives vulnerable animals a second chance—whether by keeping families together or preparing rescued pets for a brighter future.

TNR (Trap, Neuter, Return)

As part of SNIP Collier's mission to reduce pet overpopulation and improve animal welfare through accessible, compassionate care, our Trap-Neuter-Return (TNR) Program provides a humane, long-term solution for managing community cat populations. Cats are humanely trapped, spayed or neutered, vaccinated, ear-tipped for identification, and returned to their outdoor homes where dedicated caregivers continue to monitor their wellbeing. As the only major animal welfare organization in Collier County that prioritizes TNR as a core program, SNIP Collier is leading the effort to reduce future litters, improve colony health, and create healthier, more compassionate communities for both animals and residents.

Immokalee Capital Campaign

The Immokalee Capital Campaign represents the next chapter in SNIP Collier's mission to provide accessible, affordable veterinary care and reduce pet overpopulation throughout Collier County. Building on more than a decade of impact—including over 20,000 spay and neuter surgeries, the opening of our Davis Boulevard clinic, the launch of our Mobile Veterinary Clinic, and the continued success of the Helping Paws Medical Fund—we are bringing our services directly to one of the county's most underserved communities.

Through a long-term partnership with Collier County, SNIP Collier has secured a 60-year lease on the county-owned property for just \$1.00 per year, transforming the former Domestic Animal Services shelter into a state-of-the-art veterinary campus. This investment will create a renovated intake facility for rescued animals, a full-service surgery and wellness clinic, and a dedicated education center to promote responsible pet ownership and community engagement.

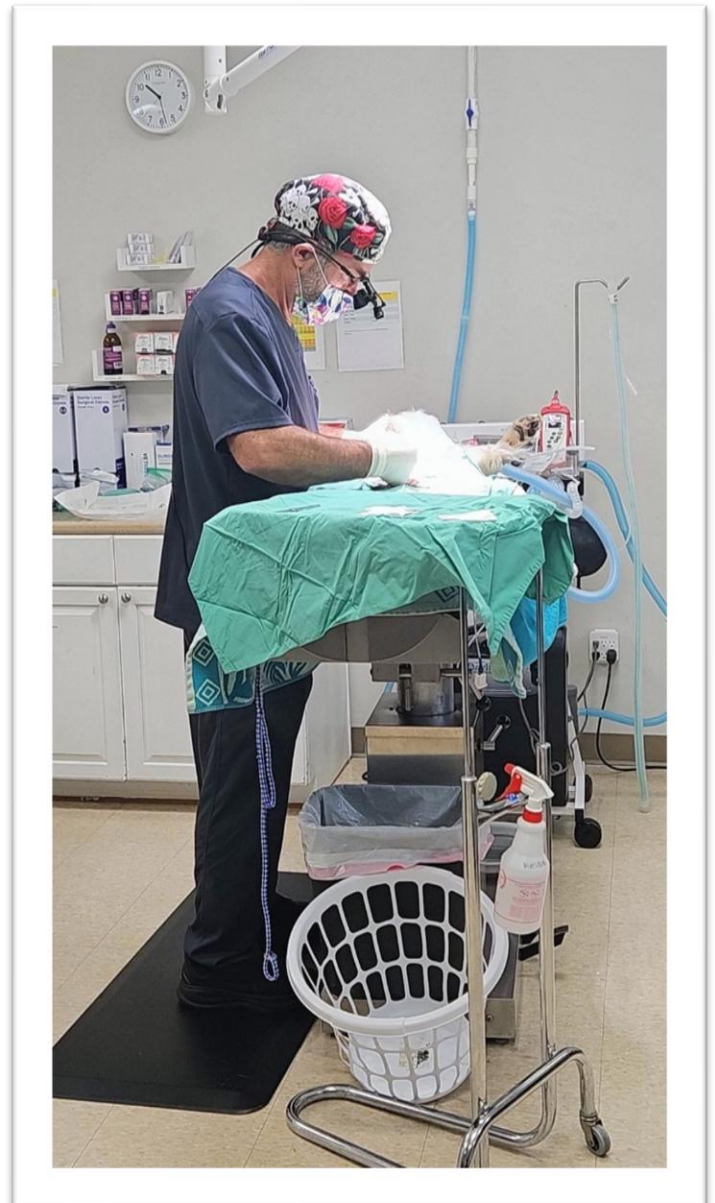

Once complete, the Immokalee campus will dramatically expand access to affordable veterinary care, increase lifesaving spay and neuter services, strengthen rescue efforts, and provide educational resources that support healthier pets, stronger families, and a more compassionate community for generations to come.

Low-Cost Veterinary Clinics

High-volume spay and neuter services are at the heart of SNIP Collier's mission to reduce pet overpopulation and improve access to affordable veterinary care. Through our low-cost veterinary clinic in Naples and our Mobile Clinic serving Collier County and surrounding communities, we provide affordable spay/neuter surgeries, wellness care, vaccinations, and essential medical services for thousands of pets each year.

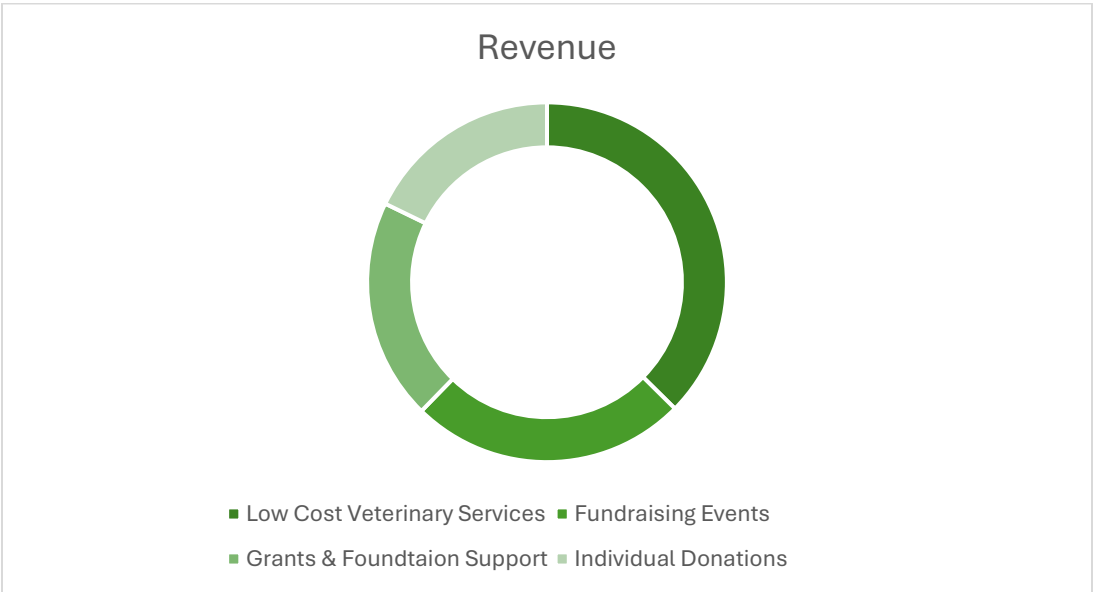

Our clinics also serve as the primary medical hub for animals supported through the Helping Paws Medical Fund, providing triage, diagnostics, treatment, surgery, and hospitalization for rescued, neglected, and surrendered animals on their journey to recovery and adoption.

Looking ahead, the anticipated completion of our Immokalee clinic in 2026 will expand our ability to reach one of the county's most underserved communities, ensuring that even more families and animals have access to compassionate, affordable veterinary care. Together, our clinics provide a vital resource that strengthens the health and well-being of pets, their families, and the broader Collier County community.

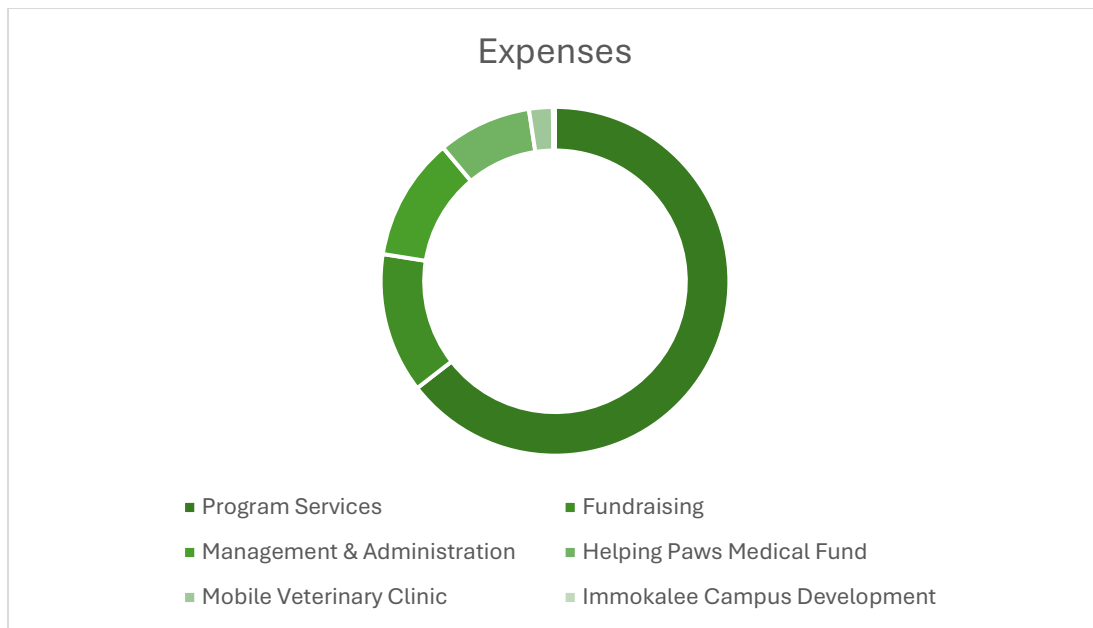

Financial Snapshot

SNIP Collier's financial strength is built on a diverse and sustainable funding model that reflects the unwavering support of our community. In 2025, our low-cost veterinary clinics remained our largest source of revenue, demonstrating the critical role affordable veterinary services play in advancing our mission. Signature fundraising events, led by our Annual Gala, provided another significant source of support, complemented by the generosity of individual donors, foundation and corporate grants, and restricted gifts that fuel transformative initiatives like the Immokalee Capital Campaign and Helping Paws Medical Fund.

Revenue Source	Amount	% of Total Revenue
Low-Cost Veterinary Services	\$983,498.96	37.4%
Fundraising Events	\$654,554.48	24.9%
Grants & Foundation Support	\$523,158.80	19.9%
Individual & Restricted Donations	\$468,937.10	17.8%
Other Income	\$20.00	<0.1%
Total Revenue: \$2,630,169.34		

****Program Services** includes low-cost veterinary care, spay/neuter services, medical care, clinic operations, and direct support for animals served through SNIP Collier's programs.

Expense Category	Amount	% of Total Expenses
Program Services (Clinic Operations)	\$998,212.86	64.5%
Fundraising	\$201,324.25	13.0%
Management & Administration	\$176,528.24	11.4%
Helping Paws Medical Fund	\$133,789.83	8.7%
Mobile Veterinary Clinic	\$34,732.61	2.2%
Immokalee Campus Development	\$2,657.68	0.2%
Total Expenses:	\$1,547,245.47	

Thank You

Every milestone we achieved in 2025 was made possible by the incredible support of our community.

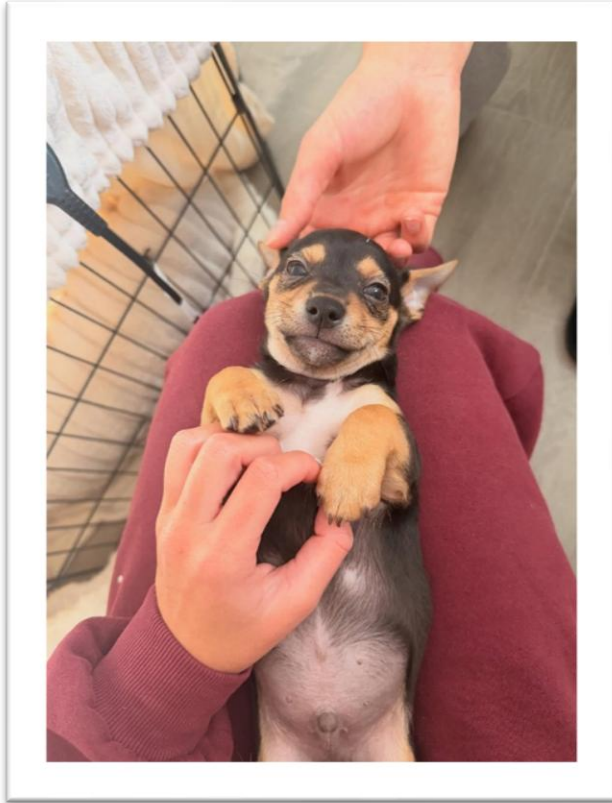

Because of our donors, volunteers, foster families, veterinary professionals, community partners, sponsors, and advocates, thousands of animals received the care they needed, families gained access to affordable veterinary services, and countless lives were changed through compassion in action.

Whether you attended an event, made a gift, volunteered your time, partnered with us, or simply shared our mission with others, you played an important role in making this work possible.

Together, we are creating a healthier, more compassionate future for animals and the people who love them—including those who have nowhere else to turn. Thank you for believing in our mission and for being part of the SNIP Collier family.

Together, We Can Do More

Our work doesn't stop here—and neither does your impact. Join our community to receive inspiring rescue stories, updates on affordable veterinary care, upcoming events, and opportunities to help pets and the people who love them.
