### ESSKIA TRAINING 2022

Dear Colleague

You will be aware that things have taken a turn for the worse for travel recently, so we wanted to update you on ESSKIA's plans for training. Due to the constant state of change, we have been unable to get a clear picture of how we can proceed with training this winter, even though we have had several versions of what we thought was a workable option. As a result, ESSKIA have provisionally selected athletes for the squads with a view to them participating in any training that we can arrange.

We are currently looking into the feasibility of running several training camps, although this will continue to be a very fluid situation. As a schools' organisation, we take our responsibilities with respect to the education and safety of the athletes seriously and as such any decisions to go ahead with the camps will need to follow Government, Educational and Schools guidelines as well as fitting in with the regulations of the host nations.

Unfortunately, at the present time we are not able to move forward with any snow-based training in our usual February window. We are monitoring the situation very closely and have several options open to us that we can move on quickly and get up and running should circumstances allow it. It may be that we are able to offer training towards the end of the season and we are certainly looking into booking our usual "squad training day" at an indoor slope

We have initially selected our normal 3 squads of racers (attached), and these will also be posted on the ESSKIA website. Please congratulate any of your racers on their selection, a tremendous achievement in these difficult, highly competitive times. As soon as we are able to "green light" a training camp or training day, we will write again to you and squad members with details.

I hope to be able to write to you again with better news in the near future.

Have a good end of term.

Best Wishes,

Mark Vernon  
ESSKIA Chairman
