

BlueMark Energy and Lone Cypress Energy Services Announce Strategic Merger to Drive Growth and Advance Energy Transition

Tulsa, OK – Oct. 7, 2025 – BlueMark Energy, LLC, a premier natural gas marketing and energy management firm, and Lone Cypress Energy Services, LLC, a leading developer of traditional and renewable energy infrastructure, today announced the completion of a definitive agreement to merge the two industry-leading firms. This strategic combination unites two complementary businesses to create a stronger, more diversified energy platform positioned for long-term success in a rapidly evolving market.

The combined company will leverage BlueMark's expertise in natural gas marketing, transportation, and energy risk management with Lone Cypress's leadership in midstream oil and gas, carbon capture, renewable natural gas (RNG), and hydrogen project development. Together, the organization will deliver innovative, sustainable, and cost-effective energy solutions to customers across the industry.

"This merger represents a pivotal step in our mission to provide reliable energy solutions to participants all along the value chain," said Michael Westbrook, CEO of BlueMark Energy. "By combining our market expertise with Lone Cypress's infrastructure development capabilities, we are creating a platform that can benefit our customers and stakeholders for decades to come."

"Lone Cypress has always focused on building infrastructure that supports both traditional and low-carbon energy systems," said Greg Brooks, President and CEO of Lone Cypress Energy Services. "Joining forces with BlueMark allows us to expand our offerings, strengthen our market position, and play a leading role in shaping the future of energy."

Following the merger, Lone Cypress will operate as a BlueMark Energy portfolio company. The combined company will maintain its headquarters in Tulsa, Oklahoma, and will operate under a unified leadership team drawing from both organizations. The transaction closed on September 30, 2025.

About BlueMark Energy

Established in 2014, BlueMark Energy is a leading natural gas marketing and energy management firm serving commercial and industrial customers. The company provides

comprehensive solutions for natural gas procurement, transportation, and risk management.
