

## **FRONT PAGE NEWS**

by Kevin McWha Steele

Strung out and electric  
In your pink light bulb dress  
You're dancing on glass  
Your hair is a mess

And you're thinking it's cool  
In your cellophane cage  
Joining the spokes  
And making your wage

And you didn't see it coming  
But now that it's true  
You're not really sure  
If it's fake, or if it's you

### **Chorus:**

Ya made front page news!  
Like the bitches with the shoes  
And the new gurus  
Front page news!

Well, ya made front page news!  
While you're payin' your dues  
In the killing zoos  
Front page news!

Caught up in the haze  
Of your new found fame  
There ain't no cure  
For your happy game!

You're just another horse  
At the stable gate  
Too fast to stumble  
Too fast for fate

And you feel it's unnatural  
And you don't know why  
Is it a time for laughter  
Or a time to cry?

**Chorus:**

Ya made front page news!  
Like the bitches with the shoes  
And the new gurus  
Front page news!

Well, ya made front page news!  
While you're payin' your dues  
In the killing zoos  
Front page news!
