

Lovely Madonna

By Kevin McWha Steele ©2007

Her eyes are diamonds in the haze
A fickle light through the maze
So when you trip and lose your way
Just remember the next day

Chorus:

Many men says she's to blame
For driving them insane
Lovely Madonna, she's alright
There to help you through the night

When you're runnin' and don't know why
Maybe scared some day you'll die
Fear so strong it kills all that you touch
Boy you're thinking way too much

Chorus:

Many men says she's to blame
For driving them insane
Lovely Madonna, she's alright
There to help you through the night

Instrumental

So when you've tried the best you can
To be what the world calls a man
Struggled so much lost all of your friends
No one left to lend a hand

Chorus:

Many men says she's to blame
For driving them insane
Lovely Madonna, she's alright
There to help you through the night
