

Teach Tech KENTUCKY

Recruiting 90 math teachers of record in grades 3–8 in Kentucky public school districts

This is a Randomized Control Trial: 1/2 of teachers from a district will be randomly assigned to implement in 2023–2024; 1/2 will serve as a Control Group (no activity). Control Group teachers may implement and receive benefits in 2024–2025

All teachers – implementers and Control Group teachers – will be invited to complete 2 surveys in the 2023–2024 school year.

Because Teach Tech KY is a Randomized Control Trial, there are guidelines about how eligible teachers are grouped to contribute to research. Ideally, we will have a minimum of 4 teachers in a grade band (grades 3–5 and/or grades 6–8) within a school or district participate, but we will work with districts to group teachers in ways that make it possible for as many of those interested to participate as possible.

WHO IS ELIGIBLE?

About Teach Tech KY:

Teachers completing 6 micro-credentials can either earn a \$4050 stipend or choose to enroll in the BloomBoard CEO II rank change program at no cost, where they complete 15 additional micro-credentials to earn a Rank 1 or Rank 2.
