BUILT ON TRUST

A Word from Julian Mellor M.D.

As we go into February, we do so with our best foot forward. In the last 12 months we have invested over £60,000 into developing our window cleaning and gutter cleaning technology. In addition to a new company van, we now have the use of a new dual operator reach and wash system and a brand new complete with camera gutter vacuum, both of which can reach up to 65 feet from ground level without the need for climbing ladders.

Our new reach and wash system allows us to safely clean windows from the ground level using water purified by reverse osmosis. To ensure it leaves a high-quality finish every time, it will be used in conjunction with the most up to date water testing equipment allowing the water to stay completely pure.

HydroSmart.uk stands alone offering window cleaning and gutter cleaning services along side our parent company Invitari Limited who offer property maintenance services and are happy to offer a quotation on anything from small handyman services to major building projects.

Finally, it gives me great pleasure to welcome Charles King to Invitari. Charles was recently made a company director of the business and this month's Spotlight feature is dedicated to him.

SUGGESTIONS

Celeriac

You would be forgiven for mistaking celeriac as one of the guest appearance aliens from Doctor Who. However, it is a nutritional powerhouse, packed with fiber and vitamins such as B6, C and K.

Vitamin B6

Your body is not able to produce B6 which is essential for promoting brain health and improving mood and therefore has to rely on sourcing it from foods and supplements.

Vitamin C

Vitamin C is one we are all familiar with found in many of the fruits and vegetables we eat daily, but did you know that in addition to helping our immune system, it helps the body to make collagen used to make skin, cartilage, tendons, ligaments, and blood vessels as well as healing wounds, and repairing and maintaining bones and teeth.

Vitamin K

Vitamin K is used to help the body with creating the proteins needed by blood clotting and the making of healthy bones.

Did you know?

The world's fastest window cleaner is Terry 'Turbo' Burrows from Essex. He holds the Guinness World Record for cleaning three 45-inch square office windows and their sills in 9.24 seconds.

Customer Data

Due to changes to GDPR, customers will now be able to access their personal information that Invitari Ltd hold. This will be through an online portal. Keep an eye on your inbox for more information but should you need immediate access, please do get in touch.

Appointments

Most of the calls we get on a daily basis is through word of mouth. This is due to the many happy customers we have served over the years who have referred our services to friends, families and strangers that have asked for trusted traders.

It is because of this that Invitari Ltd is often booked up to 6 months in advance which means that if our team are turned away on the day of your booking, it can often be difficult to find a convenient day to reschedule. We understand that sometimes it will be necessary to reschedule and therefore we will do our best to meet your needs. Please see our full list of Terms and Conditions for cancellations and rebooking, available on the Invitari Ltd website (link below)
