Find the Summer Energy Heroes

Circle the 3 summer habits that **SAVE** energy:

Air-dry beach towels

Bake cookies at 3 p.m.

Run laundry in the evening

Close blinds during the day

Leave the TV on for the dog

WAYS TO LOWER YOUR AIR CONDITIONING BILL

With hot temperatures, it is tempting to crank up your air conditioner, but chances are your energy bill will take a big hit. We have some suggestions to help you reduce your energy use while staying comfortable!

- **Raise your Thermostat Slightly**

- Chances are you won't notice much of a difference in the indoor temperature if you raise your thermostat by 2-3 degrees, but you may notice a difference in your energy bill. You could save 2-3 percent on your monthly cooling costs

- **Consider a Smart Thermostat**

- Programming your thermostat to turn off or adjust the temperature when you're away, then cool your home before you return, is a great way to save energy and money

Every bit goes a long way. South Bay Energy is here to help!
