

SANDY STEVENS

Certified Document Examiner

424 Jenna Lane North, Building 9A • Easton, PA 18045 • (610) 438-1067

THE BEST AND MOST ACCURATE FREE CONSULTATION IN AMERICA

First, never assume a Standard is really a Standard. It may be just another forgery. Signatures are often presented as Standards or appear to be authentic (especially if it is a traced Signature) and still have numerous Signs of Forgery.

Many lawyers from “the other side” have presented both lawyers and experts with a number of “Standards” that have proven later to be Questioned Signatures.

My Handwriting Comparison Chart identifies the real Standards.

My Document Questionnaire© has 100+ Questions to identify a Suspect Document. I will examine the Questioned Signatures with my Forgery Checklist© that identifies 125 Signs of Forgery.

I will examine the Questioned Document and all the Signatures and Notarizations. All fake “Standards” are then replaced with only authentic Standards and rescanned. Never accept any FAXES. Be suspicious of Faxes. Request only clear photocopies. For Wills and Powers of Attorney, request only clean and clear **color** photocopies.

I will make a list of all of the Documents by Name and Date, and will insert the Documents in sheet protectors and put them in black slant ring binders.

Reports with no visual evidence from other experts cannot compete with my exhibits. I will tell you by phone if the Questioned Signature is fraudulent and if you have a case.

All of this has been included in my Free Consultation.

You will be told how much it will cost for my large exhibits with letter by letter detailed explanations. This is the strong visual evidence that Judges appreciate.
