

Kids Workshops : Summer 2026 @ POMA Kids & Teens Studio

Week 1: Fruit themed workshops inspired by Maine's Machias Berry Trail & Connecticut's Monroe Farmer's Market.

In the AM Session, students will learn to *crochet blueberries*, create *polymer clay pie magnets*, and *tie dye tea towels* using Shibori dye methods.

In the PM Session, students will create a *needle-felted berry bowl*, *slime jam jars*, and *stamped tote bags*.

Week 2: Coastal themed workshops inspired by the Cape's seaside vibes and the mansions of Rhode Island.

In the AM Session, students will create *papier mache ship sculptures*, *hand-sewn whale plushies*, and *hydrangea paintings*.

In the PM Session, students will create *gilded photo frames with modeling clay*, *stained glass-inspired paintings*, learn to level up their handwriting with *cursive and calligraphy*, and as a bonus activity: create swifite-esque *friendship bracelets!*

Week 3: Seasonally themed workshops, inspired by a fall hike in Franconia, New Hampshire and a snowy winter day in Stowe, Vermont!

In the AM session, students will create *papier mache mushrooms*, *needle-felted field mice*, and *hand-sewn flannel leaf garlands*.

In the PM session, students will create *knitted hats*, *dip candles* and create *3D mini ski paintings*.

Workshops run on Mon/Wed/Friday schedule, with AM sessions from 9am-12, and PM sessions from 1pm-4pm. Students planning to stay for both sessions may stay during the interim, and should bring a bag lunch (tree nut free). Each session is \$130 each, including all materials.

While these are the planned activities, Kayla reserves the right to change or amend workshops at any time due to material availability or other necessary accommodations— for example, if crocheting is too challenging for students, we may shift to sewing blueberries instead! All students will leave with at least 3 successful projects to be proud of each session 😊
