ABOUT IKE

At Eisenhower Center, we believe in the power of opportunity—the opportunity for adults with disabilities to develop skills, gain meaningful employment, and live full, independent lives. For more than 40 years, we've been a lifeline for individuals with cerebral palsy, autism, Down syndrome, traumatic brain injuries, and other developmental and physical disabilities.

Many of the individuals we serve require one-on-one assistance with everyday tasks, from personal care to learning essential life skills. Through education, job training, and hands-on employment, we give them not just a place to belong, but a place to grow.

CLIENT TESTIMONIALS

The support around here is great, working support. Setting up the jobs for me, telling me okay, this has to go this way or that way, and then I can do it the best way I can. The socialization it gives me. It gives me time to have some fun also. I would be lost without this place. I wouldn't be in a group home. I'd probably be in a nursing home somewhere

Tim B.

I do chocolate boxes and outlets. I love to work. I do activities when I'm not working. I see my friends and do art, too. I like to work with my supervisor and reach my goals. It's very friendly here. It's a great place to work.
