

FOR IMMEDIATE RELEASE: Spring 2022

The **Eisenhower IKE Center**, founded in 1971, is among the largest Vocational Rehabilitation Centers for **Adults with Disabilities** in the United States. The **Center** has grown to embody the opportunity for those told of their limits, to dream of new possibilities. To strive for both physical and financial independence through mentored training with the ability to work for a paycheck and a fuller life with meaning for themselves and the greater community.

The **Center**, spanning more than 70,000 sq. ft., offers a full range of light manufacturing services fulfilling the needs of a growing list of corporate partners. From labeling, packaging, and shipping to retooling, finishing and baking, our staff oversees an eager crew of more than 100 **Clients** who take tremendous pride in their work and the companies who entrust them.

Our **Clients** are taught, trained and inspired by our caring staff who understand the potential of each individual. The needs of each **Client** are addressed from basic hygiene to more advanced physical, mental and emotional issues. All within a safe and nurturing environment filled with an atmosphere of family love and happiness.

It is with great pride we tell the story of our own business venture creating gourmet dog treats: **Ike's Gourmet**. Hand-rolled and baked daily using the finest and freshest all-natural, organic, vegan, grain-free and gluten-free ingredients, we "Treat" America's healthiest dogs while enabling our **Clients** to work with pride and purpose. Baked, packaged and shipped exclusively at the **Center** by our **Clients**, **100%** of the profits are reinvested into our **Adults with Disabilities**.

As a nonprofit, 501-C3, the **Center** relies on the generosity of our donors who enable us to carry on this noble cause.
