

FOR IMMEDIATE RELEASE:

The **Eisenhower IKE Center**, founded in 1971, is among the largest Vocational Rehabilitation Centers for **Adults with Disabilities** in the United States. The **Center** has grown to embody the opportunity for those told of their limits, to dream of new possibilities. To strive for both physical and financial independence through mentored training with the ability to work for a paycheck and a fuller life with meaning for themselves and the greater community.

The **Center**, spanning more than 70,000 sq. ft., offers a full range of light manufacturing services fulfilling the needs of a growing list of corporate partners. From labeling, packaging, and shipping to retooling, finishing, and baking, our staff oversees an eager crew of more than 100 **Clients, Adults with Disabilities**, who take tremendous pride in their work and the companies who entrust them.

Our **Clients** are taught, trained, and inspired by our caring staff who understand the potential of each individual. The needs of each **Client** are addressed from basic hygiene to more advanced physical, mental, and emotional issues. All within a safe and nurturing environment filled with an atmosphere of family love and happiness.

With great pride and an eye on independence we have established our own venture: **Ike's Gourmet – America's Dog Treat Cookie Company**. Our bakeries offer **Vegan Grain-Free** Dog Treats using the finest and freshest **Natural Gluten-Free Ingredients** while **Creating Jobs for Adults with Disabilities**. As a nonprofit, all our proceeds are reinvested into our **Chefs, Adults with Disabilities** at the **IKE Center**.

The **IKE Center** relies on the generosity of donors to enable us to carry on this noble cause. Please join our mission as we continue our march to independence.
